Corsa Performance WILL NOT BE HELD LIABLE FOR IMPROPER INSTALLATION OR USE OF THIS PRODUCT. Please follow all instructions provided. If you are unsure of any installation procedure, please contact a certified Corsa technician.

DESCRIPTION: Spark Plug Boot Protectors

PART NUMBER: AC009

KIT CONTENTS:

8 - Spark plug boot protectors

TOOLS NEEDED:

Safety gloves

Safety glasses

OVERVIEW: Corsa spark plug boot protectors prevent burning and cracking of plug boots from being close to, or in contact with headers and exhausts.

STEP 1. Remove spark plug wire from spark plug.

STEP 2. Feed the end of the spark plug boot protector over the spark plug boot and continue until the other end of the spark plug boot protector meets the open end of the spark plug boot.

STEP 3. Reinstall the spark plug wire on the spark plug.

STEP 4. Again, watch that the spark plug boot protector is not in direct contact with the header or exhaust manifold. The product's longevity could be greatly compromised.

STEP 5. Repeat steps for remaining ignition wires.
