CUSTOM MUFFLERS

For 25 years consumers and builders have asked CORSA for a drone reducing, muffler only acoustic solution, for custom and restomod builds. That solution has arrived with CORSA Performance Custom Mufflers. CORSA Custom Mufflers leverage CORSA's patented RSC® technologies and are designed to reduce drone and maximize airflow while producing that iconic "hollow" CORSA exhaust note.

Leveraging CORSA's patented RSC® Technology, each custom muffler is engineered to mitigate drone on a wide range of V8 applications. Custom builders and Classic vehicle enthusiasts can now enjoy the best, drone reducing, acoustic muffler solution available on the market today. CORSA custom mufflers come in a wide-range of shapes and sizes and are the perfect choice for that high-end custom or restomod build.

**CORSA Custom Mufflers will not eliminate all drone inducing frequencies. Muffler placement and vehicle modifications will impact overall drone reduction.*

Features and Benefits

- Best suited for V8 Custom builds and Classic cars and trucks built and engines without active fuel management
- CORSA "Custom" mufflers utilize CORSA's patented RSC® technology, a straight through design that maximizes performance while eliminating a broad range of drone inducing frequencies
- CORSA Custom mufflers will offer a Sport sound level on most V8 applications. Sound level will vary by application and be impacted by additional acoustic exhaust elements
- CORSA Custom mufflers are not directional and can be installed in any orientation
- Designed to be welded or clamped into a custom exhaust system

CORSA Performance entered the exhaust category in 1998, re-writing the rulebook for what a performance exhaust should be with the launch of our revolutionary RSC® (Reflective Sound Cancellation®) Technology. RSC® Technology allows CORSA Performance the unique ability to selectively target and eliminate resonant frequencies that cause drone, by reflecting sound waves out of phase, while custom tuning the exhaust note.

QTY	Sound Level	Inlet / Outlet	Muffler Config.	Overall Product Dims. (ea.) L x W x H	Muffler Length	Part #
1	Sport	3.0"	Offset / Offset	16" x 11" x 6.25"	10"	CP3000S
1	Sport	3.0"	Offset / Center	16" x 11" x 6.25"	10"	CP300CT
1	Sport	3.0"	Offset / Offset Same Side	16" x 11" x 6.25"	10"	CP300SS
1	Sport	2.5"	Offset / Offset	16" x 11" x 6.25"	10"	CP2500S
1	Sport	2.5"	Offset / Center	16" x 11" x 6.25"	10"	CP250CT
1	Sport	2.5"	Offset / Offset Same Side	16" x 11" x 6.25"	10"	CP250SS

For a complete drone free experience CORSA recommends selecting one of our full exhaust system solutions (axle-back or cat-back) that have been designed specifically for each vehicle application.
