

## Shipping for EZ Fit Sheds, Coops, Kennels and Playhouses

Our EZ Fit Sheds, Coops, Kennels and Playhouse Kits will ship to you in a partially assembled kit Versus pre-cut which requires larger sized pallets for shipping. The walls will ship in 4 - foot wide sections with the siding already attached to the wall framing. This will take more time unloading from the truck but will save a large amount of time in the final assembly.

The Kits are shipped out with an LTL carrier and will deliver to residents on an approximate 26' enclosed trailer. In most cases the truck/trailer is too large to fit into the driveway, if this is the case it will need to be unloaded at the end of the driveway (curbside). Most of our pallets are oversized and do not fit onto the trailer's lift-gate to unload at delivery. The pallet sizes vary from 7' -12' in length depending on the size of shed and the optional floor kit. If there is not a forklift available at delivery the customer is required to have a 2 or 3 man crew available when the delivery truck arrives to manually open the pallet/s and unload the kit parts from the back of the trailer. The delivery company will call at least 24 hours prior to delivery with the exact day and give a Two to Three hour window for delivery.

The Customer also has the option of picking up the kit at the local shipping company's terminal. Depending on the size of shed, the customer's trailer will need to be able to haul 2000-3000 lbs.

.....  
**A Special Flatbed truck with a Forklift** to unload is available in most areas in the Eastern United States for an additional cost. If this service is needed please call our office number at 800-359-7522 or email [andy@alpinestructures.net](mailto:andy@alpinestructures.net) for availability and price.

.....  
Shipping prices are calculated to ship anywhere on the mainland of the Lower 48 States. Additional shipping charges will be added for shipping onto any Islands or the Florida Keys.

.....  
**Cancellation Policy:** A 20% restocking fee will apply for cancelled orders that are packaged and ready to ship,

If your product has already shipped out of Alpine Structure's Facility, the customer will be charged a 20% restocking fee as well as any outbound and return shipping costs.
