# WEE FOREST FOLK

Welcome to the fanciful world of Wee Forest Folk! It all began forty-five years ago when Annette Petersen was inspired to sculpt miniature woodland animals in her old fashioned kitchen on the family farm in New England. Her love of nature, vivid imagination along with her witty sense of humor came together to create a tiny world of forest critters. Each one holds a heartfelt sentiment and many bustle with everyday tasks and activities. Annette's two adult children, Willy and Donna and now granddaughter, Bonnie in collaboration with her father continue the family tradition and bring their own individual aesthetic to the Wee Forest Folk line. The Petersens love to create their little mice and it all begins with a lump of clay and a whimsical idea! Each sweet little mouse or bunny will make you smile!

M-529 Napoleon and Josephine 172.00

This special, limited piece is a tribute to Annette's childhood in New York City where she was born and raised. She grew up on the upper west side where she lived in a rooming house with her parents. Central Park became her only playground and she spent many a long day playing with friends and often by herself.

She remembers fishing in the pond using a piece of bread for bait and a safety pin for a hook. She fed the pigeons and threw pennies into the Bethesda Fountain. Young Annette also walked the family dog, Ginger. Here you can see her sitting by the fountain perhaps daydreaming of someday living in the country. Many others are also enjoying the park,

a boy and his boat, a young couple about to make a wish, a man feeding the pigeons and more. As Annette cele-

to make a wish, a man teeding the pigeons and more. As Annette eelebrates her 98th birthday this June and Wee Forest Folk's 45th anniversary we hope you like 'Young Annette in Central Park.'
