

# Dilution Chart

CREATED WITH YOUR  
SAFETY IN MIND

Drops of Essential Oil per 30ml of Carrier Oil

 x 6	1% Dilution
 x 12	2% Dilution
 x 18	3% Dilution
 x 24	4% Dilution
 x 30	5% Dilution

- For topical use, we suggest using 3-5% dilution rate on the body, and a 1% dilution on the face.
- Each oil we offer is entirely pure and accepted to be used by aromatherapists.
- We never use any harmful chemicals or additives.
- Be careful to note that some of our oils are more potent than others. For the best results, many of our customers dilute essential oils with carrier and base oils or lotions for topical application.
