IN-MOTION WEIGHING SYSTEMS

Image Shown with Optional
Barcode/Dimension Scanning Equipment

Interweigh's In-Motion Weighing Systems are designed to capture the weight of a carton or package as it moves along the scale's conveyor. The carton passes through a photo-sensor which triggers the weighing process. The weight is displayed on the scale's digital indicator, which can transmit the weight via RS-232, Ethernet, and PLC Interface options to the end user. In-motion weighing systems have optional Scanning & Dimensioning equipment available per request.

Conveyor speeds are variable up to 240 ft per minute, depending on conveyor size and package size; These conveyor scales are fully system integratable and are available in various lengths and widths to suit applications.

IN-MOTION WEIGHING SYSTEMS

Image Shown Is With An Optional Infeed/Outfeed Conveyor

✓ **LEGAL FOR TRADE**

CAPACITIES:

- ▶ 51kg x 0.02 kg/101 kg x 0.05 kg
- ▶ 112 lb x 0.05 lb/222 lb x 0.1 lb

PRODUCT SPECIFICATIONS

Weight Conveyor

Height- Custom Per Request
Length- Custom Per Request
Width- Custom Per Request

Conveyor Speed- adjustable to a maximum of 240 per minute, depending on package sizes/ conveyor size combination.

Conveyor Construction

- ▶ Mild Steel or 304 Stainless Steel
- ▶ Polyurethane belting

Motor Power Options

- ▶ 220VAC/460VAC/600VAC

Indicator

- ▶ Rice Lake 1280 Enterprise Series

NOTE

- i** Only one box can be allowed on the weigh conveyor at any time to receive most accurate weighments of every item.

| Weight Indicator AC Voltages | ■ 100 to 240 VAC; 50/60 Hz |
| Communication Options | ■ RS-232C, Ethernet, PLC Interface Options |
| Legal for Trade | ■ 51Kg x 0.02 Kg/101 Kg x 0.05 Kg 112 lb x 0.05 lb/222 lb x 0.1 lb |
| Non- LFT | ■ Other capacities available in Non-Legal for Trade Applications |
| Indicator | ■ Rice Lake 1280 Enterprise Series |

NOTABLE FEATURES

- Can fit into an existing conveyor line
- Optional infeed and outfeed conveyors available
- Conveyor speeds are variable up to 240 ft per minute depending on the box size
- Easy-to-read colour touchscreen display
- 1,000-item data memory
- Units of measure (lb, g, Kg)
- Stainless steel or mild steel construction conveyors
- RS232C/422/485, Ethernet, PLC Interface output options
- Additional options: Barcode scanning, dimensioning & label printing, and apply equipment solutions
