Eliminate shipping weight errors and enhance accounting productivity!
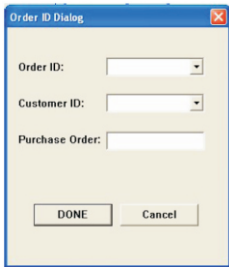

iShip2009 Software and Scanner Integrated Solutions by

INTERWEIGH **S**YSTEMS **I**NC.

Step 1

Key in the Order ID and/ or Customer ID and / or Purchase Order Values on the Portable Data Terminal.

Step 2

Scan or manually key in box UCC bar codes for each individual order. Multiple orders can be stored and managed collectively as well as individually.

Step 3

Download the order details to an Windows XP PC program and print out your picking slip in duplicate. Keep one to create a quick customer invoice and attach the other one to the shipment for an accurate picking slip specifically for your customer.

March 11, 2008		Order Reference 5555	
Product Code	**Description**	**Weight in kg**	**Total Weight**
12345	Chicken Wings	23.23, 25,47, 21.51, 22.54, 24.44	117.19

Hazard Analysis Critical Control Points (HACCP)

Interweigh Systems have standard recall programs. Bar code labeling solutions assist with recall programs for HACCP traceability. We would be very happy to discuss any of the above.
