CONTINUOUS LIGHTING

Godox

About US

Godox has been committed to providing consumers with professional and high quality lighting solutions in photography

& videography, enabling more people to enjoy the fun of lig shaping, inspiring the endless photography & videography possibility. By the vision of becoming a leading manufactur with a world-renowned brand, we hope to continuously contribute to the development of lighting industry. At Godo we have never stopped expanding our lineup to meet the different needs, and now we are branching out to include audio. Godox has become a solid name in the photography & videography market and we expect the same for our aud Dream it until we make it.

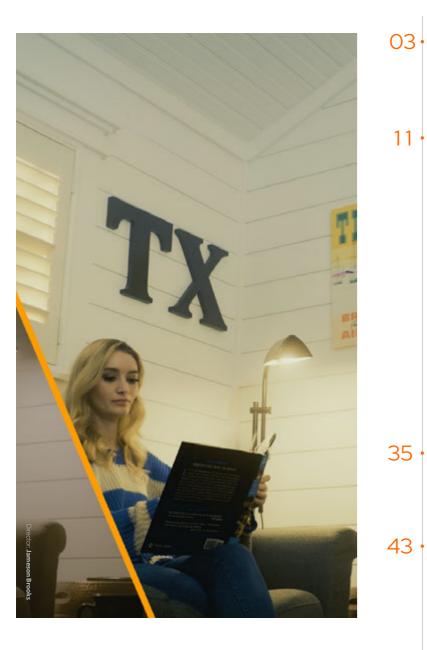

Founded in 1993 as a high-tech manufacturing facility specializing in lighting and audio equipment, Godox has no become a lighting equipment expert and innovator of gears for photographers, videographers, filmmakers and more. Driven by the mission of offering great lighting and audio solutions, Godox has been always pushing the boundaries technology, and constantly bringing professional products the industries.

	With over 1000 highly qualified staffs and 4 manufacturing
	facilities, factories covering more than 30,000 square meters,
	including an electronic products assembling center, a plastic
ght	injection and tooling center, a hardware processing center, a
У	fabric accessory assembling center. Godox runs a diverse
irer	businesses profile with main product categories in
	photography, broadcasting, cinematography and
ox,	videography, and audio industry. Through open collaboration
	and innovation, we establish industry partnership
	sworldwide, which would allow people to share great
ny	moments with our professional lighting and audio gears
dio.	anywhere in the world.
	Godox benefits from creative talent pool in R&D, Design,
	Sales and Management teams for sustained success.
WO	Drawing on these resources, we are able to keep developing
rs	more and more professional and creative products every year
	to keep up to date with the market. Godox will further ramp up
	investment into innovation, taking innovation to the next level
s of	and constantly delivering value to the industry and society at
ts to	large. We will continue working to providing products
	combining advanced technology with dynamic designs.

Daylight LED Light

M600D

Daylight LED Light

As the first knockout fixture of the Knowled series, the M600D is an evolutionary high-output LED light in daylight version, a groundbreaking combination of brightness and efficiency, and a workhorse which light up any setting you pictured in mind.

Dimming Curve

. .

LOG

Key Features

- Bursting a blinding illumination of 15,700 lux at 9.8' equipped with the included pro reflector, the M600D is brighter than ever.
- Top-notch control box tailored to gaffers' needs featuring intuitive control, diversified powering, and robust build, and ergonomic design.
- Equipped with the Godox 10" Bowens Mount Fresnel FLS10, the M600D delivers an even brighter beam penetrating faraway and renders consistent luminescence with smooth intensity.
- Upholding the highest standard of color fidelity to render vivid colors and natural skin tones in any environment.
- Adjustable finely in 0.1% or quickly in 10% increments.
- Providing 4 optional dimming curves, each achieving a unique output behavior catering to diversified settings and applications.
- AC and DC power supply, single and dual battery powering.
- Powerful cooling system ensures remarkable rapid heat dissipation in an extremely quiet process.
- Four built-in FX effects.
- · Bowens mount for wide compatibility.

When the extreme output of the M600D collaborates as a team, the power is unlimited to present a perfect light effect for any setting. Thanks to the Godox Light APP, all the complex coordination can be achieved well in hand.

The Godox innovative fanless cooling lights have evolved to bring you an extraordinary lighting experience. Based on the silent cooling design, they were upgraded with an advanced control box, added with a bi-color option, and designed with DMX control, FX effects, and all the ergonomic details.

Key Features

- Incredible fanless running, ensuring a crystal clear shooting environment even at maximum output.
- Come with a bi-color option, letting you adjust smoothly between warm and cool white.
- Control box with intuitive interface, versatile power supply system, and the special clamp for secure and convenient installation.
- 4 optional dimming curves including Exp, Linear, Log, and S-curve.
- Exceptional color rendering, with CRI rating of 96 and TLCI rating of 97.
- 7 built-in FX effects for UL150IIBi and 4 for UL150II.
- Multiple control methods including Remote, Godox 2.4G wireless, DMX, and remote control.
- Selectable AC or DC power supply.
- Bowens mount for wide compatibility.

Swift Power On the Go ML30B

Bi-color ML30Bi: 2800-6500K Godox Light

ML30 and ML30Bi are the smallest COB lights in Godox lighting range, just like a portable flashlight on call at any minutes! Wherever you are, you can instantly use them to back up the lighting, power your work with minimal space taking. What surprises most is the completeness and versatility that comes with accessories system, including Diffusion Dome, Soft Tent, Softbox, offering various light effects to inspire more. Explore lots of fun in your filming journey with ML30 and ML30Bi!

Key Features

ML30 & ML30Bi are lightweight with palm-sized but powerful LED source.

ML30Bi: 21 FX

- Battery powered option with handheld grip makes them handy gears for run and gun shoot.
- Nearly as the size of a mug cup they take up little space, ML30 & ML30Bi are perfect for lighting up in a small studio.
- ML30Bi offers smooth adjustment between 2800K and 6500K to match the ambience for a natural look.
- Scoring over 96 on CRI and 97 on TLCI, ML30 series reproduce accurate colors and thus illuminate your scene a naturally way.
- Silent mode supports creation in sound-sensitive environments
- Wireless control by Godox Light APP

Recommend to

Videographers who shoot run and gun Content creators who work without assistants Producers who work on fast-paced projects Indie filmmakers who need mobile fill light Any locations you favor ML-CD15 & ML-CS1625 are designed with distinctive features to

Godox Pioneering Accessories

Soft material as a new choice makes them lightweight and flexible in shape, easily to be squeezed as small as possible for storage or transportation.

elevate your lighting experience in all rounds for light softness, variable light effects, setup time and even portability.

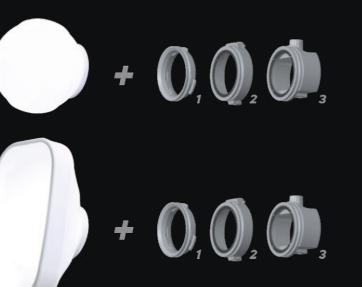

One for Universal Pair

1. Godox mount adapter to work with all Godox mount lights

2. Round head adapter to work with all round head speedlights like Godox V1 series

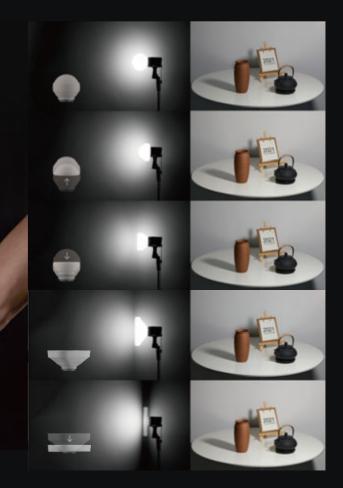

3. Rectangle to round head adapter to work with most rectangle speedlights

More Accessories

Collapsible design opens several ways to shape light. Use diffusion dome in fully extension for 360-degree lighting, or collapses the back to diffuse at 180 degrees, and when collapsing the front, you can change the light quality for more dimensionality.

SL60W

Featuring high brightness and color accuracy, the 5600K daylightbalanced SL60W is versatile constant light source well-suited for video work. The intuitive design of SL60W incorporates a rear LCD monitor and dial for 10-100% dimming adjustment. Also, to help ensure consistent and continuous use, a heatsink and built-in fan are featured to help regulate temperature along with a specialized temperature control function to protect the LED itself.

A Run & Gun Filmmaking Setup With ML60

Key Features

- Daylight-balanced light has a color temperature of 5600K.
- The 60W LED offers a high output along with color-accurate rendering and dimming control from 10-100%.
- Bowens S-mount is compatible with a variety of light modifiers and accessories, such as the included reflector for producing a broad, even, and neutral light quality.
- Integrated heatsink, built-in fan, and temperature control function help keep the light running cool for safe and consistent use. The temperature of the fixture itself can also be monitored, in Fahrenheit or Celsius, on the rear LCD.
- Runs on 100-240 VAC power for use worldwide.

For those pursuing the best power out of limited budget, Godox has SL100D and SL100Bi for you. Compact unit with high brightness, SL100 twins work well for small space lighting. Daylight SL100D as basic solution while the Bi-color SL100Bi for more creativity. Bowens mount makes it easier to choose accessories. Want to gain popularity as a Youtuber, live streamer, content creator or commercial producer, Lighting with SL100 will be a good start.

Godox Light App Control

Key Features

- Dependable 5600K SL100D and variable (2800~6500K) SL100Bi feature a high CRI/TLCI rating of 96/97 that translates to advanced accuracy in color rendering.
- SL100D offers Lightning 1/2/3, Flash, Conference, Paparazzi, Television, and Broken Bulb , and based on that SL100Bi has 3 additional light effects: Candle, Fire, Firework.
- With its compact design, you can freely use it in home or small studio settings.
- Bowens front accessory mount allows use of Godox modifiers and those of the many manufacturers that use this popular mount.
- Dual dials and clearly marked buttons offer intuitive user interface • The SL100D/SL100Bi functions can be adjusted on the fixture, with a smartphone using the Godox Light App, or with an optional wireless remote.

SL150II& SL200II LED light are suitable for broadcasting, cinematography, online streaming, and other video applications.

Key Features

- Portable LED monolite-style light source outputs up to 150W/200W of power
- With a CRI/TLCI rating of 96/97, it produces highly accurate color renditions and delivers pristine and natural results, greatly saving your post-production time and money.
- The stunning heat dissipation system and ultra quite design allow SL II keeping at a negligible noise while working.
- Featuring 8 Lighting FX, you simulate the lighting effect of flash, storm, TV and a broken bulb, and so on, bring you more creative possibilities in photography and video shooting.
- The 360° rotatable U-shaped yoke offers excellent flexibility and can be used with most light stands
- SL II is widely compatible with various Bowens mount accessories, catering to your different requirements on light shaping.

SL Series LED Light

Bi-Color

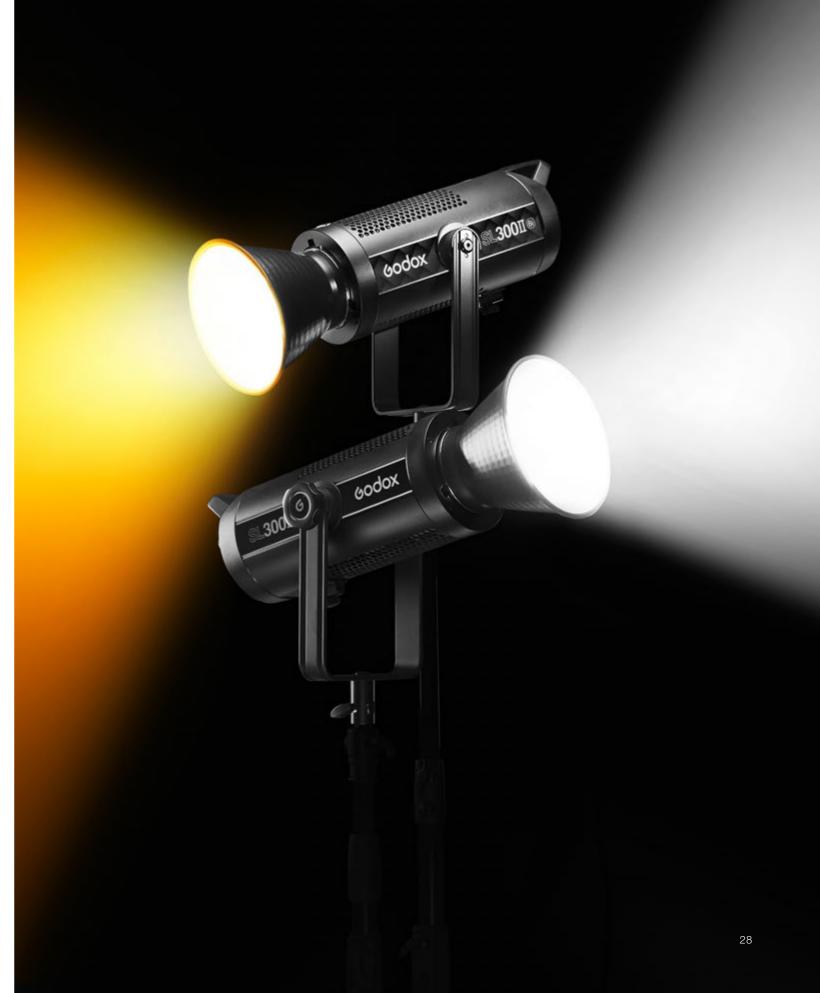

SL150IIBi and SL200IIBi got all the excellent quality and performance of SLII series lights with the added flexibility of expansive color temperature range, bringing users a more creative and flexible experience. SL150IIBi/SL200IIBi is ideal companion for online streaming, broadcasting, and other video applications.

Key Features

- Variable color temperature (2800 to 6500K) allows you to match other fixtures, meet the ambient light, or just follow your creative impulses
- You can turn off the fan for sound-sensitive situations
- Nine built-in special effects including Flash 1, Flash 2, Storm 1, Storm 2, TV, Broken Bulb, Fire, and Fireworks
- The Bowens front accessory mount allows use of a large list of light shapers
- Wireless control: 32 channels, 16 groups with the optional RC-A6 remote

FX

SZ200Bi is a zoomable Bi-color LED light, designed for video production, filming, online streaming, and photography. Combining impressive high output, reliable color accuracy, wide color temperature ranged and equipped with Bowens-mount, this light can fit your various lighting needs and give you ultimate versatility and creative freedom.

Key Features

- Adjusting the beam angle from 20 degrees to 65 degrees with its zoomable knob, you spend less time changing light fixtures and adjusting distance, and more time capturing the perfect light for your production.
- With high CRI and TLCI scores of 97 and 96, the SZ200Bi delivers vibrant
 natural light and reproduces accurate colors.
- The wide color temperature range of 2800 to 6500K lets you quickly match the color of existing lighting without worrying about the gels.
- For a wide variety of lighting scenarios, the SZ200Bi features 8 preset tunable cinematic lighting effects including flash, lightning, broken bulb, TV candle, fire, fireworks, and SOS.
- Four optional control methods (On-Board Control, DMX Control, RC-A6 Remote, and Godox Light app) allow you to adjust and control your lights in various scenarios to makes your work flow easier.
- Turn off the fan to eliminate unwanted noise so you can focus more on the content and not worry that the light will cause any noise interference.

Zoomable & Bi color & RGB

SZ150R, a RGB Bi-color Zoomable COB LED light, is designed for video production, broadcast, and photography. It is especially versatile for making a short film with limited crew, which can boost your work efficiency greatly and allow you freely enjoy the joy of creation. Its Bowens mount can access to its included reflector and a variety of accessories to get your desired light effects easily. Now let SZ150R power you to explore more boundlessly!

Key Features

- Boasting the ultimate in color control, the SZ150R has an RGB Mode with Hue, Saturation and Intensity control plus Magenta/ Green control that gives the shooter access to multi custom colors.
- CCT Mode offers variable color temperature with a range of 2800 to 6500 or anywhere in between. The light's high CRI/TLCI ratings of 97/96 are your assurance of superior accuracy in the depiction of colors.
- You can "Zoom" from a tight 20 degrees to a wide 65 degrees just with a twist of a knob to suit your subject without moving the light.
- The SZ150R has 13 built-in special effects including RGB Cycle, Flash, Laser, Lightning, Broken Bulb, TV, Candle, Fire, Fireworks, Police Car, Fire Truck, Ambulance and SOS.
- SZ150R silent mode supports users to focus more on the content and never trouble from any noise interference by light fixture.

The Green/Magenta control supports you to fine tuning skin tones and mixing/matching light sources.

Focusing Lights

The focusing LED light S30 is a suitable light source for video lighting, interviewing, headshot, still life photography, portrait, wedding photography, and pre-wedding photography, and also a good choice for enthusiasts who want create lighting.

Even and Smooth Beam (with projection attachment)

Tech Specs

Key Features

Outstanding Lighting Effects

• An aspheric optical lens gives S30 with a CRI and TLCI rating of 96+, S60 CRI/TLCI ratings of 96+/97+ and guarantees natural, pristine color in any application.

Precise Control of Light Coverage

• With a beam angle from 6 to 55 degrees, you can get the output spread size you need by adjusting the rotary knob on the back. An optional projecting lens makes it useful lighting details.

Multiple Options of Power Supply

• Three ways of power supply offer great convenience for S30, portability and wide application

Power supplied by DC adapter (15V/4A) li-ion battery (Sony NP-F970/ F950/F930) (7.4V)

Power supplied by power bank with a USB cable(5V/2A)

Beam angle from 6 to 55 degrees, you can get the ideal spotlight size by adjusting the rotary knob on the back. With a projecting lens (optional) light can be focused at its extreme. This controllability makes S60 series perfect for lightening any details.

Key Features

- Beam angle from 6 to 55 degrees, light where you want
- Variable Color Temperature
- High color rendering CRI/TLCI rating of 96+/97+
- Lighting FX
- Silent mode
- Control by Godox Light app, remote RC-A6 or DMX

More Features of S60 Series

Multiple Control Methods

· With a built-in Bluetooth system, the S60 can be remotely adjusted for the setting on the user-friendly "Godox Light" app. It also supports optional RC-A6 wireless remote control.

Silent Mode

 In the silent mode, the fan is turned off to avoid any acoustic disturbance for sound sensitive environments. (light intensity is decreased by half when the fan is turned off)

Panel Lights

LED36

LED36 & LED64 are ideal lightweight continuous lighting source. It is excellent for macrophotography, product shooting, and video recording, etc. This portable light provides high brightness and accurate color temperature. You can flexibly control the light brightness by using the dimmer and by interlocking multiple lights.

Key Features

- Multiple high-quality LED bulbs
- Interlocking design for multi-lamp array
- Steplessly adjustable with a dimmer
- · Fits all brands of cameras & camcorders
- Use AA batteries (LED64 can use DC power)

Tech Specs

Model	LED36	LED64

Net Weight	80g	110g

LED126 & LED170 have more beads to offer brighter illumination to fit different shooting environments. It comes with a diffusion filter and a yellow filter, and also supports multiple power supply modes. You can flexibly control the light brightness by using the dimmer and change the illumination direction by using the angle adjusting knobs.

Key Features

- Over 100 LED bulbs in wide-size panel
- AA batteries/lithium battery (not included) or DC power
- Steplessly adjusts light brightness with the dimmer
- Flexibly changes LED light angle
- Fits almost any DSLR cameras and camcorders

Featured with wireless group control and brightness adjustment with high lighting, LED308II series fits various professional shooting scenarios: wedding, journalistic and object video photography. The light is dimmable from 100 to 10% brightness, and a built-in LCD screen shows color temperature, brightness, battery power, and wireless channel.

Key Features

- 308-LED-bulbs panel is lithium-ion or DC powered
- Wireless 433MHz grouping system (6 groups & 16 channels)
- Wirelessly adjust brightness or color temperature with optional remote control
- Three Versions to offer multiple choices
- · Include a portable handle and a mini stand
- Large-sized LCD panel. Settings auto saved. Quickly change panel angle.
- Fits almost any cameras and camcorders

LED1000B II Bi-color version

LED1000D II/LED1000Bi II video lights are excellent for product shooting, photojournalistic and video recording, etc. It provides a wide spectrum, beautifully soft and even illumination for photography.

LED1000Bill/LED1000DII

Key Features

- Premium LED bulbs and wide screen offer high brightness
- Three models create various light effects
- Three control options to wirelessly adjust brightness or
- color temperature
- Lithium battery or DC charged

* Yellow and blue filters only for LED1000D II

Accurate Color

With a CRI/TLCI rating of 96/98, it produces highly accurate color renditions and delivers pristine and natural results.

Flexible and Versatile

The four reflective barndoors enables to shape and adjust the light for optimal result and protect the bulbs while in storage. Thanks to the yoke, the light can be easily adjust the angle.

Three control options

Control the individual unit or groups either locally on-board control with LCD Panel, wirelessly with the RC-A5II remote control(optional), or via the DMX control system. You are free to control the brightness from 100% to 0% and color temperature (of LED1000Bi II) from 3300K to 5600K and so on in any situation.

Hybrid Flashes and LED Lights

Photographer: Aries Tao

Flash Mode

-)**4**X

The brighness of flash is four times of LED's Over 10 continuous flashes per second in 1/2 power

***HSS** 1/8000s HSS **2.4G** Godox wireless X system

High Speed Sync Flash and Continuous Light FV series add flash functions based on the traditional LED light. FV series can be served as a flash, as well as an LED light. With strong power, abundant functions and 8 FX special effects modes, it can achieve creative shooting easily. It fits for all kinds of shooting occasions, especially for children shooting due to its soft LED light source and strong power flash.

Key Features

As a Flash

• The flash's light brightness is four times of LED light's, which increase the freezing ability of instantaneous action.

- Supports 1/8000s high-speed sync function. Over 10 continuous flashes per second and 8 continuous flashes per second in high-speed sync mode in 1/2 power output.
- Built-in Godox 2.4G wireless receiver (X system), compatible with
- Canon, Nikon, Sony, Fuji, Panasonic, Olympus and Pentax cameras.
- 1/16-1/1 or 6.0-10.0 power output displayed in the form of fractions or decimal.
- Adjust modeling lamp's light brightness from 5% to 100%.

LED Mode

Soft light effects

0-100% Precise brightness adjustment

8 FX special effects

As a LED Light

- With soft light effects and high light brightness which can be precisely adjusted from 0% to 100%.
- With 8 FX special effects mode to simulate various of shooting scene and achieve creative shooting.

More Design Details

- Support wireless control (16 groups and 32 channels) with optional remote control.
- With U-type bracket to adjust different angles easily.
- Bowens-mount enables to install various of accessories conveniently.
- Large and clear LCD display.
- Excellent heat dissipation.

Hybrid Flashes and LED Lights

Struggle with a shot that fails to display your imagination, or desire for more power to ignite the viewers? You can always find better answers on lights. TL120 gives freedom shaping the visual impacts in any forms, try these stylish tube-shaped lights to draw the scene you want! They can be everywhere, in any forms! To throw some as glaring background practicals, to sketch beautiful rims by single set, or even create powerful arrays by stacking tubes, you may spend a day investigating the limitless ways of how they show up.

Key Features

- 117cm long, light wider with more power
- Simple elegant tube shape makes them perfect for structuring spatial depth on screen
- Full feature settings on RGB, HIS, CCT, Gel and FX, by one tap on the App you create exciting collision of colors, adding rich dynamics and visual power to build your scene to a rousing climax
- TL120 can be easily controlled on Godox Light App, RC-R9 remote, or DMX controller
- Clear reading screen and easy on-board function setting, TL120 ensures a smooth usage as well as speedy adjusting
- Inbuilt battery lasts more than 150 minutes even at full power output

Light Sticks

With cold/warm color temperature and adjustable light brightness, LED Light Stick LC500 is suitable for various of occasions like live, self portrait, product and wedding shooting, camping, etc. Added with RGB mode and FX light effect, LC500R adopts all you loved about its predecessor to further free your creativity. Its two-way barndoor shapes and directs the light spread. With the CRI rating at 96 and TLCI at 98, the light reproduces the nature and vibrant colors.

Key Features for LC500R

- Freely switch LED bicolor mode, colorful light mode and 39 situational special effects modes
- Easy to adjust color temperature, light brightness, hue and color saturation
- Wireless remote control (optional) offers great convenience
- With easy operation and wide application

Wireless Remote Control

0-100% Precise brightness adjustment

Key Features for LC500

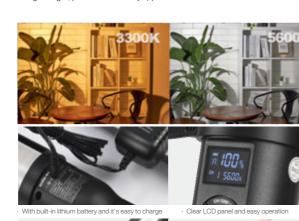

- With high color rendering index(CRI>95, TLCI≥95) and even illumination to present
- the objects authentically.

 \square

STREAMING LIGHTS

Designed especially for E-sports streamers, ES45 Kit is built to last with solid metal while keeping incredible slim and space-saving. It is bright enough to illuminate your streaming space yet still comfortably soft to your eyes. Embrace the ES45 Kit and just WOW. You look much more professional than before.

Key Features

- Magnetic Auto-Charging Remote Controller
- Adjust color and brightness with the wireless 2.4 GHz controller. It's detachable from the light and reattaches magnetically to charge.
- IOS/ Android Smartphone Control: Godox Light app • The ES45 renders soft light that is especially flattering to skin tones
- and complexions, so you'll always look your best.

Group Control at Your Fingertips

Find out the perfect lighting setup without even getting up! Download the Godox Light app to your smartphone or tablet (I0S/Android) , then you can control multiple lights at the same time at your fingertip via Bluetooth.

Magnetic Auto-charging Controller

Adopting 2.4G technology, the detachable magnetic controller can adjust the brightness and the color temperature for a precise lighting set-up in real-time. Once the streaming is closed, you can put it back to the light panel for autocharging.

E-sports LED Light

Cool in the E-Sport

Featuring a super- efficient cooling system, ES45 Kit keeps the heat impressively low. You can enjoy long-hour streaming with a comfortable and neat ambience.

Spotlight You from Anywhere

Low profile, thin, simple and elegant design. Effortless installation for a quick setup. Free rotation to desired angles for the best light effect.

creativity.

WL4B

97

WL4B is a tiny pocket-sized LED light for creators, whichen ables to ignite your creation everywhere you go, tolight your interview or live stream whenever you need.Waterproof function allows you to explore your journey in various environment. Bring the light with you, any challenge is possible!

Key Features

- A CRI/TLCI rating of 97 and the 55° beam angle make it a powerful
- light fixture with excellent color rendition
- Wireless control via Godox Light APP support easy brightness adjustments, FX settings and the other necessary controls
- The fixture supports 13 effects including Lighting, Flash, Broken Bulb, TV, and SOS
- The WL4B is waterproof down to 100ft, which allows you to comfortably use the fixture in wet weather as well as dry, or when submerged
- It incorporates a rechargeable battery that lasts 80 minutes at full brightness, conveniently charging via USB-C cable connecting with your power bank or other power supplies outdoors.

Tech Specs

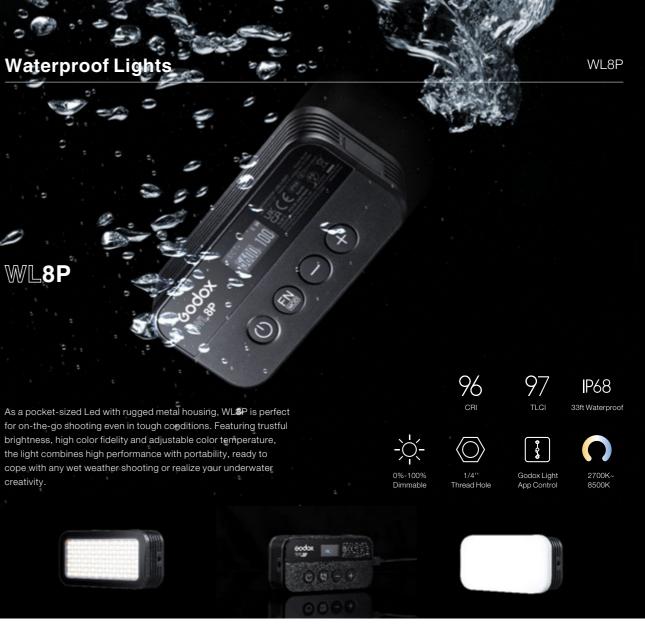

Model	WL4B
Built - in Lithium Battery	3.8V/1500mA
Power	Max.4W
Waterproof Level	IPX8(30m)
Color Temperature Range	5600K ± 300K

Beam Angle	55°
Continuous Usage Time	High brightness \approx 1 hour and 20 minutes
	Medium brightness ≈ 2 hours
	Low brightness \approx 5 hours and 30 minutes
Standard Charging Power Source	DC5V/2A
Control Method	Smartphone APP
Working Environment Tempertature	-10~40°C
Dimension	45*45*47mm
Weight	116g

Key Features

- Born for on-the-go
- Compact, portable and rugged, WL8P packs every remarkable feature for your on-the-go shooting. Measuring 11cm*5.7cm*3.25cm and weighing only 263g, taking a WL8P is almost like taking another smartphone, barely adding any burden to your journey.
- Ready for Water Challenge With IP68 waterproof down to 10m, the light can resist wet weather and acciden splash easily, a reliable solution for any waterside vlogging and video making.
- Light up Your Creation 160 high-quality LED beads bring trustworthy brightness, dimmable from 0%-100%. Combined with a wide beam angle, it allows you to light up all the subjects within the frame. Perfect to serve as a Vlog light or fill light for your shooting.
- Excellent Color Fidelity With a CRI rating of 96+ and a TLCI rating of 97+, it delivers vibrant, natural light and reproduces accurate colors.
- Adjustable Color Temperature The CCT mode features a wide color temperature range from 2700k-8500k, providing more creative ways with no need for gels. A nice choice to match the ambient light, shape your look and get the amazing skin tone you want.
- Creative Light Effects
- 8 built-in special light effects with 3 modes each (except for strong light effect) for creating various dramatic effects, adding spice to your video content at no extra cost
- Wireless Control at Your Fingertip

Through Godox Light App, you can change the brightness, color temperature and FX effects of WL8P remotely. Especially practical when you use it as an underwater light source or need group control.

• Power that Never Fails You

Built-in 2900mAh lithium battery guarantee a 1-hour runtime at full brightness, which helps you concentrate on creation without interruption. A reliable choice both on location and indoor.

Fresnel Lens

Build with class-leading technology to intensify the LED light the Godox Fresnel Lenses empower your LED lights to deliver an even brighter beam penetrating faraway and renders consistent luminescence with smooth intensity. Tons of technology behind FSL10 serve for one purpose-maximizing the output while maintaining the light quality.

Key Features

- Intensify the Output
- The Godox Fresnel Lenses FLS8 and FLS10 amplify the output of Godox LED lights utmost by 19 times.
- Variable Beam Angle

Beam thrown by FLS8 can be adjusted from spot 10° to flood 40°. Beam thrown by FLS10 can be adjusted from spot 10° to flood 35°. Robust Construction

- The ergonomic and sturdy build of the Godox Fresnel Lenses ensures minimized light leaks and rugged durability.
- Compatible with Barndoors

Compatible with the Godox 8-leaf barndoors to precisely cut and shape the light for more creative expressions.

ACCESSORIES

SA-17

Godox SA-17 Adapter for Bowens-mount LED lights to Projection Attachment, with its solid construction, allows you to use Godox SA-P Projection attachment with any of your Bowens-mount LED Lights for achieving a greater degree of control with your light.

Extending the SA-P Projection Attachment's Compatibility The adapter allows COB Bowens-mount LED lights users to release their boundless creativity by matching with SA-P projection attachment to achieve their desired effects. For users who already own S30 focusing light, now they can go beyond S30 and use the adapter to serve for a broader range of Bowens-mount LED lights.Equipped with built-in optical lens, the adapter provides excellent optical performance, asurring light output that's even from edge to edge.

AD-S60S

Compatible with AD300Pro/ML60/ML60Bl, comes with grids

Godox AD-S60S is a dedicated softbox with silver interior finish and parabolic reflecting shape to deliver indirect lighting and create distinct contrasts. The softbox has native Godox mount to snap onto the AD300Pro or ML60/ML60Bi in no time, comes with two levels of diffusion to create degrees of increased softness, includes grids for extra beam directing, and has zippered slot for cables and cord placement on the side.

AD-S65S/AD-S65W AD-S

Compatible with AD300Pro/AD400PRO/ ML60/ML60Bl, comes with grids The parabolic softbox has two model AD-S65S with silver lining and AD-S65W with white lining. AD-S65 softbox adopts parabolic box design to offer soft and even light effects for shooting. The shape of the softbox allows the user to control precisely where the light falls and soften the light stream and is built on the basis of a quick folding mechanism.

AD-S85S / AD-S85W

Compatible with AD300Pro/AD400PRO/ ML60/ML60Bl, comes with grids With deep design to output soft light with a sharp falloff, Godox AD-S85 makes feathering and edge-lighting simple. The included fabric grid thwarts spill light and offers directional control necessary for selective lighting. Its quick-folding mechanism allows you to set up and break down quickly.

The Godox mount softboxes comes with a grid that eliminates spill light and provides the directional control that facilitates selective lighting.

If you want a cool-toned look with snappy contrast, attach the silver reflector inside the umbrella. If you want a soft, warm rendition attach the gold reflector. The removable front diffuser makes it easy.

CS-85D/CS-65D

Godox Collapsible Lantern Softbox CS-85D/CS-65D is perfect for use overhead or to raise the ambient illumination level. With a 270 degree beam angle, the light is ideal for video recording, live streaming, film making, and still life photography.

Key Features

- Extremely Fast Setup
- Stunning, Soft, Omni-Directional Light
- Bowens Mount Compatiblity
- Optional skirts for beam spread control

Thanks to it's simple and durable design, this softbox is a breeze to use. The lantern can be popped open or closed in mere seconds.

Purchase skirt for achieving better light control Skirt Set for Lantern Softbox (Available for Purchase)SS-65 for CS-65D / SS-85 for CS-85D

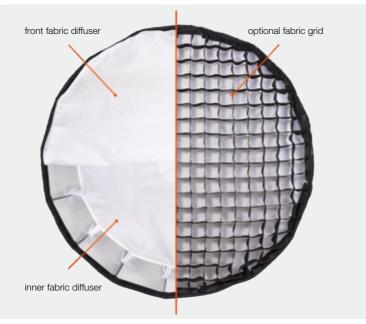

P90L / P90H

Godox Parabolic Softboxes are the essential modifier for commercial, fashion, and portrait photographers. There are two version for choice, P90L for Lighy Version and P90H for High Temperature Resistant Version. P90L/P90H series adopt deep parabolic box design,which enables light to be sent out straightly and brightness, offering even, soft, and high saturation light effects for shooting with easy installation, great portability. P90L/P90H comes with removable one-stop outer and inner diffusers to achieve different levels of contrast. A carry bag is included for storage and transport.

P120L / P120H

Godox P120L/P120H softbox is useful for stunning fashion and portraiture images. Same as P90L/P90H, the P120 softbox also has two version. P120L/P120H is a 16-sided light-shaper offering focused, soft output with a punchy, crisp edge that lends dimension and detail to your subject as well as natural-looking catchlights in their eyes. The parabolic design yields soft, focused light with a crisp edge. With removable outer and inner diffusers, it can achieve desired contrast. A carry bag is included for storage and transport.

Each of the parabolic softboxes (P90L/H & P120L/H) as well as QR Quick Release Parabolic Softboxes have a reflective silver interior with a black outside. There are also removable inner and front fabric diffusers that clip into both the parabolic softbox and quick release parabolic softbox, as well as an optional fabric grid to narrow down the beam spread for more precise control.

Removable inner and front diffusers, giving you brightness & contrast. The collapsible grids (optional) narrows the beam spread of the softbox.

QR-P70 / P90 / P120

The Godox quick release parabolic softbox adopts an impressive quick release system for rapid setup and breakdown. Highly versatile and compatible, it provides you reliable light quality and various creative expressions. Available in three different sizes, this fast and easy to use softbox is deal companion for your indoor and on location shootings

Key Features

- Reflective silver interior to render a punchy high contrast
- Removable inner and front fabric diffusers
- Impressive quick release system for rapid setup and breakdown
- Reliable light quality and various creative expressions
- Bowens mount strobes and continuous light compatible

Parabolic Softbox | Quick Release Bowens Mount

QR-P70 / P90 / P120

Softbox | Bowens Mount

Compatible with any flash head or monolight that uses the popular Bowens accessory mount; The softbox can also mount with Godox mount and Profoto mount accessory via attaching the SA-GD Godox mount adapter (optional) and SA-PF2 Profoto mount adapter (optional). And speed ring SA-BR2 is for adapting Broncolor lights.

As it folds down into an easy carry bag, it's extremely portable and therefore ideal to use on location.

specific areas of your subject.

Square Softbox

Rectangular Softbox

Model: SB-BW-6060/9090 Sizes (W x H): 60x60cm,90x90cm

Model: SB-BW-6090/70100/80120 Sizes (W x H): 60x60cm,70x100cm,80x120cm

Effortless Softbox Setup

The easiest way to put the softbox up is to click two rods on opposite sides up at the same time. Once they're all clicked into place, you simply Velcro the top panels of the softbox together to prevent light leakage.

To take the softbox down again, you simply lift the rod slightly whilst pressing down the button above it.

In this way, you can have the softbox assembled in mere minutes.
