

Doors

CDE Animal Cages offers (4) Door Options:

Standard, Dual, Dutch, & Hamper

With (3) Non-entry Options:

Trap Door Floor, Safety Zone, & Removable Hinge Door

Placement options include: CENTERED, LEFT or RIGHT. Standard doors will be placed on the front panel of the cage, but additional doors can be added to the sides or back.

- **Standard Door**
 - What is standard will depend on the model you are looking at.
 - Each model has a set size and opening.
 - Custom designs will have custom measurements.

- **Dual Doors**

- Additional door, latched on top and bottom, placed beside the standard one (latched normally).
- Applicable to any model.

- **Dutch Doors**

- (2) doors stacked atop one another within the same opening.
- Applicable to any model.

- **Hamper Top**

- Recommended for Single-Units only, this is an outward opening roof that acts as the main access door.
- Request the Double-Hinge Upgrade, if desired.

Non-entry Doors

- **Trap Door Floor**

- Hinged and latched under the floor, swings to the back.
- Applicable to most models.

- **Safe Zone**

- Extra cage-bank outside of main door for increased security.
- Recommended only for Walk-Ins.

- **Removable Hinge Door**

- Door can be removed completely. Typically placed within Vertical Dividers.
