

CARIAGGI

FINE YARNS COLLECTION

Dear Sirs,

For Cariaggi Lanificio spa consider care for the environment, social interest, human activity, and development with respect for future generations, not just as a business opportunity to stand out at world level, but above all as a duty of conscience.

Cariaggi's approach to this theme is a sincere one: sustainability is in fact an essential asset when it comes to company placement. During 2006, Cariaggi achieved a series of international standard requirements concerning the company's eco management, reaching the certification. This certification is in line with the spirit of safeguarding and care for the environment which is such an outstanding element of Cariaggi's philosophy. The company maintains a commitment programs and measures to reduce its impact on the environment:

- -25% of textile fibre waste
- -27% of plastic packaging
- 92% of total waste is sent to recycling programs
- 100% use of renewable energy
- reduction of 14% of total consumption §
- reduction of 16% of CO2 emission in heating plants

To the above information we can join the below certifications:

- ISO 14001 certification - Certified Environmental System
- ISO 45001 certification - Certified Health and Safety System
- Health and Textile Association Certification - Identify a monitoring system of the chemical sustainability
- ITF certification - Certified traceability production.

Yours faithfully,

CARIAGGI LANIFICIO SPA
