Südwolle Group GmbH **Schwaig near Nuremberg**

Examination of the concept for recording
and tracking stocks of tops and yarn from
“non-mulesed” and “ceased-mulesed” wool

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), its global network of member firms, and their related entities (collectively, the “Deloitte organization”). DTTL (also referred to as “Deloitte Global”) and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/de/UeberUns to learn more.

The Management of

**Südwolle Group GmbH,
Schwaig near Nuremberg**

– hereafter also referred to as “Südwolle GmbH” or “entity” –

engaged us to conduct an examination of the concept for recording and tracking stocks of tops and yarn from “non-mulesed” and “ceased-mulesed” wool for the period from 1 January to 31 March 2023.

The scope of the engagement and our responsibilities thereunder, both towards the entity as well as any other party, are governed by our agreement dated 16 December 2022 / 12 January 2023 and additionally by the enclosed “

General Engagement Terms for Wirtschaftsprüfer and Wirtschaftsprüfungsgesellschaften (German Public Auditors and German Public Audit Firms)” as of 1 January 2017.

This mandate was performed solely for Südwolle GmbH and not with regard to possible third-party interests.

Subject and purpose of the examination

The subject of the examination was the concept for recording and tracking stocks of tops and yarn from “non-mulesed” and “ceased-mulesed” wool which Südwolle GmbH implemented on 1 January 2011 and revised in 2014.

“Non-mulesed” wool is wool which comes from farmers who do not practice “mulesing” on their sheep. Wool is described as “ceased mulesed” if the farmers used mulesing in the past but have now ceased.

Currently mulesing is only carried out by Australian sheep farmers. Wool suppliers from Australia provide Südwolle GmbH with certificates confirming that the wool supplied is “non-mulesed” or “ceased mulesed”. Mulesing used to be practiced in New Zealand but has since been abolished; wool from New Zealand is generally classified as “non or ceased mulesed”. All wool from South Africa, Argentina, Chile, Uruguay and Great Britain is classified as “non-mulesed”; there are certificates for the respective country as a whole.

Südwolle GmbH has developed and implemented a concept which enables the stocks of non-mulesed and ceased mulesed wool to be traced.

The following Südvolle group companies are included in this concept:

- Südvolle Group GmbH, Schwaig near Nuremberg
- Zhangjiagang Yangtse Spinning Co., Ltd., Zhangjiagang, China
- East West Spinning Sp. z.o.o., Lodz, Poland
- Südvolle Group Italia S.p.A, Gaglianico (Biella), Italy
- Dalat Worsted Spinning Ltd., Da Lat City, Vietnam

We also examined for the period from 1 January to 31 March whether Südvolle GmbH had sufficient “non-mulesed and ceased-mulesed” tops and yarn in stock at all times for use as deliveries to customers declared as “non-mulesed and ceased-mulesed”.

Nature and scope of the examination

Our examination was based on the written documentation of the Company entitled “Non Mulesed – Zertifikatsabwicklung” (*non mulesed – certification*) and the recording of all non-mulesed and ceased-mulesed inventories at 31 December 2010. The inventory count included the stock held by Südvolle GmbH and by the related parties East West Spinning Sp. z o.o., Zhangjiagang Yangtse Spinning Co. Ltd., Zhangjiagang Yangtse Dyeing Co. Ltd. and S.C. Stoehr Rom s.r.l. Consequently all inward movements of stock of non-mulesed and ceased-mulesed wool were recorded as additions to this pool. Outward movements of stock deducted from the balance comprised all sales of yarn where the invoice to the respective customers expressly stated that the respective amount of wool purchased was from non-mulesed and ceased-mulesed production. The balance of stock of non-mulesed and ceased-mulesed tops and yarn can be obtained by rolling this data forward. This inventory bookkeeping is designed to ensure that Südvolle GmbH and its related parties do not sell more non-mulesed and ceased-mulesed yarn than is held in the computed level of stock.

We conducted our examination between April and June 2023.

In conducting our examination we reviewed the Company’s documents, conducted interviews with the staff members responsible for the project at Südvolle GmbH and examined supporting documentation on the non-mulesed and ceased-mulesed yarn deliveries between 1 January to 31 March 2023.

The Company's internal control system was examined by us to the extent that it was relevant to the certification system; our examination did not cover the system of internal controls taken as a whole.

The following key documents were made available to us for the examination:

- Written documentation of the Company entitled "Non Mulesed – Zertifikatsabwicklung" (*non mulesed – certification*)
- Summary of the balance of non-mulesed/ceased-mulesed yarn/wooltops on 1 January 2023, the purchases and sales of non-mulesed/ceased-mulesed yarn/wooltops from 1 January to 31 March 2023.
- Purchase invoices concerning purchases declared as "non-mulesed/ceased-mulesed" yarn/wooltops, and the corresponding greasy wooltop certificates or confirmation from the countries not conducting "mulesing operations".
- Sales in the system which were declared to the customers as wool from non-mulesed/ceased-mulesed production.

Our examination comprised the assessment of the effectiveness of the system implemented by Südvolle GmbH in respect of its ability to ensure that there was sufficient stock of non-mulesed and ceased mulesed yarn between 1 January to 31 March.

We obtained all the explanations and supporting documentation which were requested for the examination.

Conclusion

Based on our work we come to the conclusion that the concept established by Südwole Group GmbH for recording and tracking stocks of tops and yarn from “non-mulesed” and “ceased-mulesed” wool, particularly with regard to the ongoing guarantee of sufficient stocks of “non- and ceased-mulesed” tops, is reliable.

According to the results of our work performed for the period from 1 January to 31 March 2023, Südwole Group GmbH had sufficient “non-mulesed and ceased-mulesed” tops in stock at all times for use as deliveries declared as “non-mulesed and ceased-mulesed”.

[German Public Auditor]

CERTIFICATE

The Deloitte GmbH Wirtschaftsprüfungsgesellschaft, Rosenheimer Platz 4, 81669 München was officially licensed as Wirtschaftsprüfungsgesellschaft (German public audit firm) on March 9, 1949 and is a member of the Wirtschaftsprüferkammer. The audit firm is entered in the public register of the Wirtschaftsprüferkammer under the registration number 150713200.

It is the professional duty of German public audit firms to carry out business examinations, especially those involving audits of annual financial statements of business enterprises, and to issue an auditor's opinion on the conduct of the audit and the findings. German public audit firms are authorized to advise and represent their clients in tax matters in accordance with existing regulations. They are furthermore authorized to act officially as experts in the field of business management, under reference to their professional oath, to advise on business matters and preserve third-party interests and to act as trustees.

A precondition for carrying out statutory audits according to § 319 Section 1 Sentence 3 Commercial Code is the registration as statutory auditor in the public register. The Deloitte GmbH Wirtschaftsprüfungsgesellschaft is currently entered as statutory auditor in the public register.

German public audit firms are audit firms for the purpose of the Directive 2006/43/EC on statutory audits of annual accounts and consolidated accounts of May 17, 2006, as last amended by the Directive 2014/56/EU of April 16, 2014, if they are entered as statutory auditors in the public register.

1. Scope of application

(1) These engagement terms apply to contracts between German Public Auditors (*Wirtschaftsprüfer*) or German Public Audit Firms (*Wirtschaftsprüfungsgesellschaften*) – hereinafter collectively referred to as "German Public Auditors" – and their engaging parties for assurance services, tax advisory services, advice on business matters and other engagements except as otherwise agreed in writing or prescribed by a mandatory rule.

(2) Third parties may derive claims from contracts between German Public Auditors and engaging parties only when this is expressly agreed or results from mandatory rules prescribed by law. In relation to such claims, these engagement terms also apply to these third parties.

2. Scope and execution of the engagement

(1) Object of the engagement is the agreed service – not a particular economic result. The engagement will be performed in accordance with the German Principles of Proper Professional Conduct (*Grundsätze ordnungsmäßiger Berufsausübung*). The German Public Auditor does not assume any management functions in connection with his services. The German Public Auditor is not responsible for the use or implementation of the results of his services. The German Public Auditor is entitled to make use of competent persons to conduct the engagement.

(2) Except for assurance engagements (*betriebswirtschaftliche Prüfungen*), the consideration of foreign law requires an express written agreement.

(3) If circumstances or the legal situation change subsequent to the release of the final professional statement, the German Public Auditor is not obligated to refer the engaging party to changes or any consequences resulting therefrom.

3. The obligations of the engaging party to cooperate

(1) The engaging party shall ensure that all documents and further information necessary for the performance of the engagement are provided to the German Public Auditor on a timely basis, and that he is informed of all events and circumstances that may be of significance to the performance of the engagement. This also applies to those documents and further information, events and circumstances that first become known during the German Public Auditor's work. The engaging party will also designate suitable persons to provide information.

(2) Upon the request of the German Public Auditor, the engaging party shall confirm the completeness of the documents and further information provided as well as the explanations and statements, in a written statement drafted by the German Public Auditor.

4. Ensuring independence

(1) The engaging party shall refrain from anything that endangers the independence of the German Public Auditor's staff. This applies throughout the term of the engagement, and in particular to offers of employment or to assume an executive or non-executive role, and to offers to accept engagements on their own behalf.

(2) Were the performance of the engagement to impair the independence of the German Public Auditor, of related firms, firms within his network, or such firms associated with him, to which the independence requirements apply in the same way as to the German Public Auditor in other engagement relationships, the German Public Auditor is entitled to terminate the engagement for good cause.

5. Reporting and oral information

To the extent that the German Public Auditor is required to present results in writing as part of the work in executing the engagement, only that written work is authoritative. Drafts are non-binding. Except as otherwise agreed, oral statements and explanations by the German Public Auditor are binding only when they are confirmed in writing. Statements and information of the German Public Auditor outside of the engagement are always non-binding.

6. Distribution of a German Public Auditor's professional statement

(1) The distribution to a third party of professional statements of the German Public Auditor (results of work or extracts of the results of work whether in draft or in a final version) or information about the German Public Auditor acting for the engaging party requires the German Public Auditor's written consent, unless the engaging party is obligated to distribute or inform due to law or a regulatory requirement.

(2) The use by the engaging party for promotional purposes of the German Public Auditor's professional statements and of information about the German Public Auditor acting for the engaging party is prohibited.

7. Deficiency rectification

(1) In case there are any deficiencies, the engaging party is entitled to specific subsequent performance by the German Public Auditor. The engaging party may reduce the fees or cancel the contract for failure of such subsequent performance, for subsequent non-performance or unjustified refusal to perform subsequently, or for unconscionability or impossibility of subsequent performance. If the engagement was not commissioned by a consumer, the engaging party may only cancel the contract due to a deficiency if the service rendered is not relevant to him due to failure of subsequent performance, to subsequent non-performance, to unconscionability or impossibility of subsequent performance. No. 9 applies to the extent that further claims for damages exist.

(2) The engaging party must assert a claim for the rectification of deficiencies in writing (*Textform*) [Translator's Note: The German term "Textform" means in written form, but without requiring a signature] without delay. Claims pursuant to paragraph 1 not arising from an intentional act expire after one year subsequent to the commencement of the time limit under the statute of limitations.

(3) Apparent deficiencies, such as clerical errors, arithmetical errors and deficiencies associated with technicalities contained in a German Public Auditor's professional statement (long-form reports, expert opinions etc.) may be corrected – also versus third parties – by the German Public Auditor at any time. Misstatements which may call into question the results contained in a German Public Auditor's professional statement entitle the German Public Auditor to withdraw such statement – also versus third parties. In such cases the German Public Auditor should first hear the engaging party, if practicable.

8. Confidentiality towards third parties, and data protection

(1) Pursuant to the law (§ [Article] 323 Abs 1 [paragraph 1] HGB [German Commercial Code: *Handelsgesetzbuch*], § 43 WPO [German Law regulating the Profession of *Wirtschaftsprüfer*: *Wirtschaftsprüferordnung*], § 203 StGB [German Criminal Code: *Strafgesetzbuch*]) the German Public Auditor is obligated to maintain confidentiality regarding facts and circumstances confided to him or of which he becomes aware in the course of his professional work, unless the engaging party releases him from this confidentiality obligation.

(2) When processing personal data, the German Public Auditor will observe national and European legal provisions on data protection.

9. Liability

(1) For legally required services by German Public Auditors, in particular audits, the respective legal limitations of liability, in particular the limitation of liability pursuant to § 323 Abs. 2 HGB, apply.

(2) Insofar neither a statutory limitation of liability is applicable, nor an individual contractual limitation of liability exists, the liability of the German Public Auditor for claims for damages of any other kind, except for damages resulting from injury to life, body or health as well as for damages that constitute a duty of replacement by a producer pursuant to § 1 ProdHaftG [German Product Liability Act: *Produkthaftungsgesetz*], for an individual case of damages caused by negligence is limited to € 4 million pursuant to § 54 a Abs. 1 Nr. 2 WPO.

(3) The German Public Auditor is entitled to invoke demurs and defenses based on the contractual relationship with the engaging party also towards third parties.

(4) When multiple claimants assert a claim for damages arising from an existing contractual relationship with the German Public Auditor due to the German Public Auditor's negligent breach of duty, the maximum amount stipulated in paragraph 2 applies to the respective claims of all claimants collectively.

(5) An individual case of damages within the meaning of paragraph 2 also exists in relation to a uniform damage arising from a number of breaches of duty. The individual case of damages encompasses all consequences from a breach of duty regardless of whether the damages occurred in one year or in a number of successive years. In this case, multiple acts or omissions based on the same source of error or on a source of error of an equivalent nature are deemed to be a single breach of duty if the matters in question are legally or economically connected to one another. In this event the claim against the German Public Auditor is limited to € 5 million. The limitation to the fivefold of the minimum amount insured does not apply to compulsory audits required by law.

(6) A claim for damages expires if a suit is not filed within six months subsequent to the written refusal of acceptance of the indemnity and the engaging party has been informed of this consequence. This does not apply to claims for damages resulting from scienter, a culpable injury to life, body or health as well as for damages that constitute a liability for replacement by a producer pursuant to § 1 ProdHaftG. The right to invoke a plea of the statute of limitations remains unaffected.

10. Supplementary provisions for audit engagements

(1) If the engaging party subsequently amends the financial statements or management report audited by a German Public Auditor and accompanied by an auditor's report, he may no longer use this auditor's report.

If the German Public Auditor has not issued an auditor's report, a reference to the audit conducted by the German Public Auditor in the management report or any other public reference is permitted only with the German Public Auditor's written consent and with a wording authorized by him.

(2) If the German Public Auditor revokes the auditor's report, it may no longer be used. If the engaging party has already made use of the auditor's report, then upon the request of the German Public Auditor he must give notification of the revocation.

(3) The engaging party has a right to five official copies of the report. Additional official copies will be charged separately.

11. Supplementary provisions for assistance in tax matters

(1) When advising on an individual tax issue as well as when providing ongoing tax advice, the German Public Auditor is entitled to use as a correct and complete basis the facts provided by the engaging party – especially numerical disclosures; this also applies to bookkeeping engagements. Nevertheless, he is obligated to indicate to the engaging party any errors he has identified.

(2) The tax advisory engagement does not encompass procedures required to observe deadlines, unless the German Public Auditor has explicitly accepted a corresponding engagement. In this case the engaging party must provide the German Public Auditor with all documents required to observe deadlines – in particular tax assessments – on such a timely basis that the German Public Auditor has an appropriate lead time.

(3) Except as agreed otherwise in writing, ongoing tax advice encompasses the following work during the contract period:

- a) preparation of annual tax returns for income tax, corporate tax and business tax, as well as wealth tax returns, namely on the basis of the annual financial statements, and on other schedules and evidence documents required for the taxation, to be provided by the engaging party
- b) examination of tax assessments in relation to the taxes referred to in (a)
- c) negotiations with tax authorities in connection with the returns and assessments mentioned in (a) and (b)
- d) support in tax audits and evaluation of the results of tax audits with respect to the taxes referred to in (a)
- e) participation in petition or protest and appeal procedures with respect to the taxes mentioned in (a).

In the aforementioned tasks the German Public Auditor takes into account material published legal decisions and administrative interpretations.

(4) If the German Public auditor receives a fixed fee for ongoing tax advice, the work mentioned under paragraph 3 (d) and (e) is to be remunerated separately, except as agreed otherwise in writing.

(5) Insofar the German Public Auditor is also a German Tax Advisor and the German Tax Advice Remuneration Regulation (*Steuerberatungsvergütungsverordnung*) is to be applied to calculate the remuneration, a greater or lesser remuneration than the legal default remuneration can be agreed in writing (*Textform*).

(6) Work relating to special individual issues for income tax, corporate tax, business tax, valuation assessments for property units, wealth tax, as well as all issues in relation to sales tax, payroll tax, other taxes and dues requires a separate engagement. This also applies to:

- a) work on non-recurring tax matters, e.g. in the field of estate tax, capital transactions tax, and real estate sales tax;
- b) support and representation in proceedings before tax and administrative courts and in criminal tax matters;
- c) advisory work and work related to expert opinions in connection with changes in legal form and other re-organizations, capital increases and reductions, insolvency related business reorganizations, admission and retirement of owners, sale of a business, liquidations and the like, and
- d) support in complying with disclosure and documentation obligations.

(7) To the extent that the preparation of the annual sales tax return is undertaken as additional work, this includes neither the review of any special accounting prerequisites nor the issue as to whether all potential sales tax allowances have been identified. No guarantee is given for the complete compilation of documents to claim the input tax credit.

12. Electronic communication

Communication between the German Public Auditor and the engaging party may be via e-mail. In the event that the engaging party does not wish to communicate via e-mail or sets special security requirements, such as the encryption of e-mails, the engaging party will inform the German Public Auditor in writing (*Textform*) accordingly.

13. Remuneration

(1) In addition to his claims for fees, the German Public Auditor is entitled to claim reimbursement of his expenses; sales tax will be billed additionally. He may claim appropriate advances on remuneration and reimbursement of expenses and may make the delivery of his services dependent upon the complete satisfaction of his claims. Multiple engaging parties are jointly and severally liable.

(2) If the engaging party is not a consumer, then a set-off against the German Public Auditor's claims for remuneration and reimbursement of expenses is admissible only for undisputed claims or claims determined to be legally binding.

14. Dispute Settlement

The German Public Auditor is not prepared to participate in dispute settlement procedures before a consumer arbitration board (*Verbraucherschlichtungsstelle*) within the meaning of § 2 of the German Act on Consumer Dispute Settlements (*Verbraucherstreitbeilegungsgesetz*).

15. Applicable law

The contract, the performance of the services and all claims resulting therefrom are exclusively governed by German law.
