

Powersaver Select PSS Cycle Selectable Timer

Benefits

The Powersaver Select is a simple to use, multi application time switch. Although primarily used for the control of water heating, the PSS can also be used for a multitude of applications including the control of panel heaters, towel rails or combi boilers.

An electronic controller offering a maximum of 3on & 3off each day according to the programming cycle selected.

One of the main benefits of the Powersaver Select product is its standard size. This is common to all models, which fit directly onto a single gang patress box.

The Powersaver family saves on fuel expenditure and energy wastage by automatically switching off when the user may forget.

Features

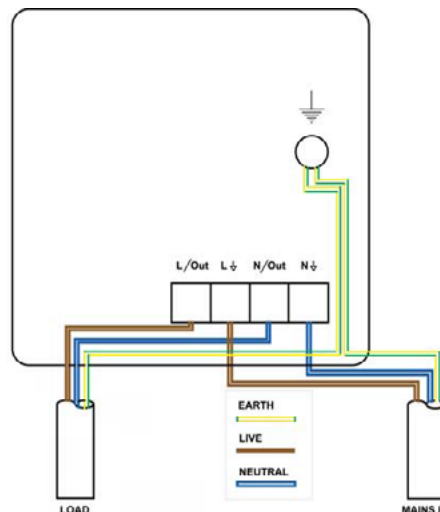

- 24 hour, 5/2 day & 7 day electronic timer
- Up to 3 program operations per day
- 30 mins, 1 hour and 2 hour boost function
- Fits directly onto a single gang patress box

Technical Data

Contact Rating:	16A Resistive 240V a.c.
Supply:	230V 50/60 Hz a.c.
Fixing:	Single Patress - Surface and Flush Mounting
Resolution of Programs:	10 Minutes
Power Consumption:	10VA Maximum
Live Parts Protection:	This unit is totally protected by the enclosure
Dirt and Moisture Protection:	IP00
Shock Protection:	Class 1 (this unit must be connected to earth)
Case Material:	Polycarbonate
Type of Action:	Type 1B
Temperature Rating:	T35
Operation Temperature:	0°C to 35°C
Memory Reserve:	4 Hours - when on power for previous 12 hours
Display:	LCD
Program Settings:	Max 3 On/Off Operations each day according to program cycle selected: 1. Daily (24 Hour) Cycle - All days programmed the same 2.
