

Choice TRV Pack Thermostatic Radiator Valve

Benefits

The Sangamo Choice TRV pack includes a quality TRV sensor with limit controls and a matching Lockshield valve. This pack, for 15mm pipe also includes the radiator “tails” and adaptors for 8mm and 10mm copper pipe (allowing the valves to be fitted onto either 8mm or 10mm copper pipe). The Sangamo Choice TRV pack will add a modern feel to your radiator and will save you money by closing the valve when the desired temperature is reached.

Features

- Reversible Angle
- Bi-directional Valve
- Liquid filled sensor provide consistent and reliable performance
- Sensor head may be mounted vertically or horizontally
- Memory clips to limit range
- Lockshield, Bi-directional
- 8mm and 10mm microbore pipe adapter fittings

Applications

The Choice TRV pack provides the essentials for control of radiators in wet central heating systems. The Choice TRV will save you money by turning the radiator down when other services of heat in the room are warming the room.
