

### Application Rates

#### Tranplanting:

Spread the granular at the bottom of the planting hole. While filling the planting hole, spread product in close proximity to the roots.

Container size	Amount of Granules	Plants Treated per lb
seed - 4 in	¼ tsp	480
1 gal	1 tsp	120
3 gal	4 tsp	30
5 gal	2-4 tbsp	10-20
1" caliper stem	4-6 tbsp	6-10
2" caliper stem	6-8 tbsp	5-7

#### Mixing with potting soil or soilless media:

Mix 4-8 oz. per 2.5 cubic feet of soil.
