

Hose End Sprayer

Use 2 tsp/5 grams of product per 12 ft² of existing landscape. We recommend mixing 2 tsp/5 grams per 1000 ml and spraying at a rate of 8 oz/gal.

Potted or Established Plants

Apply at a rate of 1 tsp per gal of water.

| Container size | Amount of Solution | Plants treated per lb |
|----------------|--------------------|-----------------------|
| 4 in | 8 oz | 1,920 |
| 1 gal | 16 oz | 960 |
| 5 gal | 128 oz | 120 |

*120 tsp per lb
