ABOUT DESHA

Desha is a Cape Town based yoga and meditation company. We stock everything you need to support and sustain your practice. Desha is the Sanskrit word for 'space' or 'place'. Often used to describe the quiet inner space cultivated through mindfulness and meditation, we also take it to refer to the internal spaciousness that props help you find in your yoga practice.

Prop use is invaluable for helping practitioners build the strength, balance, flexibility and awareness necessary for a safe and effective yoga practice.

As far as possible, our products are made from locally sourced, sustainable and non-toxic materials mindfully designed to support and transform your yoga and meditation practice.
