

Jamaican Black Castor Oil

Used for all skin types for the growth and health of lashes and brows.

Manufacturing is the key to success when using Jamaican Black Castor Oil. 100% JBCO is manufactured in Jamaica and shipped to the US for distribution. Seva's JBCO begins in Jamaica, hand-pressed from organic castor beans in the traditional Jamaican way without the use of chemicals and processed manually. Instead of wetting, the seeds are cleaned, dried, baked, approved through a grinder, and then boiled to extract the 100% pure, dark oil.
