- C. Connect the cable harness as described above. **Place the interface inside driver side panel cover** (near -2- above) and mount it firmly using cable ties or double side tapes.

## RSNAV.com CarPlay interface for 3G MMI (C7) Manual

- D. If you want more OE styled installation using cigarette socket in front, purchase 'Car Dash Cigarette Socket Mount USB Data Extension' like pictured below sold in Amazon or Ebay but keep the entire extension length under 3 foot.

Proceed following if you are going to install the extension.

Routing USB port to armrest: Remove the shifter using Trim Removal Wedge Pry (like 3409) and put your hand into the bottom of the center console like -A- and push up like -B- and remove console carefully unplugging connectors.

Remove ashtray cover by removing two bolts -1, 5-, and lifting up latch -2- from -3-, and take out the cover -4- and remove the whole ashtray assembly. Unplug cigarette lighter socket.

## RSNAV.com CarPlay interface for 3G MMI (C7) Manual

Mount the supplied USB extension to the cigarette lighter socket and run the USB wire to the main harness of the interface and connect it into the USB port in the harness.

Reassemble everything back.

Note that to hear any sound from CarPlay interface, you must select 'external audio input' from 'Media' of your 'Audi MMI' menu.

Optional: you can install USB port in armrest by replacing 12v socket or drill a new hole; nevertheless, it involves complete removal of center armrest tunnel.

Visit <https://tinyurl.com/y97o9xyt> or scan QR code below to see how to remove the center console and center trim.

Audi MMI 3G AUX activation procedure

1. Turn key into II position and wait for the MMI 3G system to start. You can also use keyless buttons.
2. Press and hold buttons MENU(or SETUP) and CAR.
3. After couple of seconds hidden green menu will appear. You can now release the buttons.
4. Navigate to diagnose → settings → AMI/AUX.
5. Change the value of "AUX" "disabled" to "enabled" preserving other options.
6. Press RETURN and CAR buttons at the same time to exit hidden green menu.
7. Restart the MMI

Audi MMI force restart procedure – 3G, 3G+

Locate button:

- A. MENU(or SETUP) button
- B. MMI Center knob
- C. Upper-right soft button

Press and hold those buttons at the same time.

After two seconds release buttons. Audi MMI screen will go black for few seconds and system will reboot.

Reminder: For Apple CarPlay, please deactivate your Bluetooth in your iPhone manually, Otherwise, Audi car mic will not pick up any voice for your handsfree call. Apple does not allow our device to deactivate your iPhone's Bluetooth when connected with CarPlay, thus it's Manual.

For Android Auto, remain in Bluetooth in Audi MMI Media, so that both handsfree and A2DP music to be heard. IF you prefer to keep superior media streaming, you can deactivate media profile in your Android phone and switch to External Audio Sources in Audi MMI Media. But you may required to switch to Bluetooth manually when receiving a call.
