## 1. Before stitching

### How to handle embroidery thread

Cut the thread to a length that is easy to use. It will be easier to use 0.5m for detailed designs and 1m for continuous designs.

One #25 floss is made by loosely twisting 6 thin threads.

To make the thread bulge, pull it out one by one to loosen the thread, and use it after arranging the required number of threads for a beautiful stitch.

The #25 floss is made by loosely twisting 6 thin threads. Pull out some of these thin threads and call it 「○ strands」.

- ① Fold the thread in half and pull out the required number of threads.
- ② Align the threads.
- ③ Pass the end of the thread in a loop through the needle hole.

## 2. Before stitching

### About the beginning and end of #25 floss.

#### ● How to use thread

##### 〈How to make a knot〉

If you are not accustomed to handling threads and needles, it will be easier to stitch if you make a knot.

As shown in the figure on the right, wind the thread 2 to 3 times on the needle and pull out the needle.

※ It is recommended to get used to the method of entwining the thread below.

##### 〈How to thread the last eye of a stitch.〉

Leave 5 - 7 cm of thread at the beginning of the stitch, Thread the thread behind the stitch.

Tie a knot at the end as shown in the figure, or thread some stitches through the back thread.

- ① Thread the needle through the eye of the last stitch.
- ② Put a needle in the ring and make a knot.
- ③ Scoop the stitches and cut the thread.
