

BAU DIR DEINEN ROBOTER

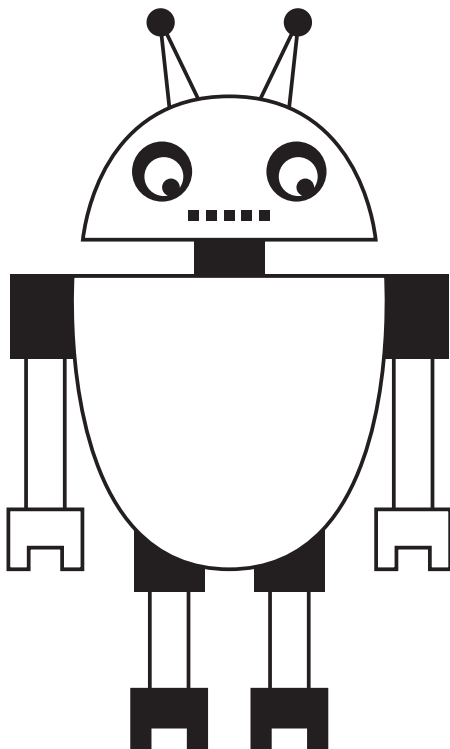

Schneide die einzelnen Gliedmaßen an den gestrichelten Linien aus, klebe sie mit den grauen Flächen am Bauch an und baue Dir so Deinen eigenen Roboter. Du kannst Dich dabei an unseren Robotern Ralf, Roland, Rüdiger und Rainer orientieren oder neue Roboter kreieren. Male Deine Roboter danach noch bunt an oder klebe sie auf Karton auf! Sie machen sich auch toll als Deko im Kinderzimmer.
