# OFFICE COLORS

FOR FANS OF THE OFFICE TV SHOW

The Office may have ended nearly a decade ago but we are all still binge-watching it in record numbers. Piggybacking off its BBC counterpart of the same name, it lasted for 201 episodes over 9 seasons. It was developed for the US by Greg Daniels who also gave us the hilarious Parks & Recreation. The first season received mixed reviews but as the show progressed so did its popularity. That first season may have been a rocky start but the show went on to win a Peabody award, two SAG awards, four primetime Emmys, and all of our hearts. Steve Carell also won a Golden Globe for his performance as everyone's favorite boss, Micheal Scott.

Go on, say it "Dwight, you ignorant slut!" Did you laugh before you finished your sentence? Is it impossible to have a serious conversation with you because you slip "that's what she said" into literally everything? Does looking at a yoga ball make you picture Dwight collapsing to the floor during a prank gone wrong? You know every time you see a George Foreman grill you immediately think of that stupid bubble wrap cast and how dramatic Micheal was. Can you even think about Angela without hearing, "Save Bandit!?" Do you find yourself saying, "identity theft is not a joke, Jim!" or "Bears, Beets, Battlestar Galactica?" If the answer to any of the above is a resounding yes then this set was made for you.

# SHADES OF ANATOMY

## FOR FANS OF GREY'S ANATOMY

Let's face it, this show has probably caused more tears than laughter yet we are still glued to our screens. Grey's Anatomy premiered on March 27, 2005, and focused on the lives of surgical interns, residents, and attendings as they balance becoming successful doctors with their personal and professional relationships. The series follows Meredith Grey and her journey from intern to the chief of general surgery. We get to watch her experience the ups and downs of a surgeon's life. Grey's Anatomy is the longest-running scripted primetime show currently running on ABC. It also boasts the longest-running American primetime medical drama series. There are currently 18 seasons with no signs of letting up.

This series has so many iconic scenes it's hard to pinpoint your favorite or the one that destroyed you the most. How about when we finally found out who John Doe was? Ummm...utterly heartbreaking. What about the stress-inducing episode where Christina is forced to perform surgery at gunpoint? Need a tension breaker, how about Christina's hidden flask during the softball game? # SCHITTY COLORS

FOR FANS OF SCHITT'S CREEK

For 6 seasons we followed the formerly wealthy Rose family as they were forced to relocate to a town Johnny purchased as a joke for his son David. This town's name sent giggles throughout millions of households - Schitt's Creek.

As they struggle to adjust to a less than glamorous lifestyle while living in a rundown motel, they frequently find themselves in conflict with the small town's rural residents. How did we get this cult classic? Well, we have the Canadian treasure Eugene Levy's son Dan to thank. He came up with the idea while watching reality tv shows. What would happen if these mega-rich families suddenly lost everything?

This hilarious pack of pencils is the perfect gift for fans of Schitt's Creek. Each pencil is foil-stamped with a fun reference or pun related to your favorite characters and moments.

Did you lose it when David roasted his dad's questionable sleepwear suggesting he looks like Ebenezer Scrooge? Does Moira's interesting pronunciation of crabapple make you snicker every single time? # COLORS & RECREATION

## FOR FANS OF PARKS & RECREATION

After their success with *The Office*, Greg Daniels and Michael Schur struck gold again with *Parks and Recreation*. Over the course of seven seasons, we follow Leslie Knope, the deputy director of the parks and recreation department, in the fictional town of Pawnee, Indiana as she wades through bureaucratic red tape, tries to balance being the boss and a friend, and climbs the career ladder. Much like *The Office*, *Parks and Rec* also started on a rocky footing with critics, but despite the rough start, *Parks and Rec* went on to win The Television Critics Association Award and Amy Poehler won a Golden Globe for her performance of everyone's favorite public official.

Did you cry laughing when the team couldn't get a long enough red carpet for Leslie's big speech? Remember when the flu swept through the building and the iconic line, "Don't pinch me!" from a delirious Leslie? After a hard week have you ever knocked off work to "Treat Yo' Self?" Did Ben's mild obsession with calzones when he was unemployed crack you up? Do you secretly want to play Cones of Dunshire? I think we can all agree watching Ron try to eat a banana was some of the best comedy ever written. And we all felt like Tom when he just wanted to hear the doctor say that Gerry had a fart attack. If you still get hyped when you hear 5,000 Candles in the Wind, then this set is for you.

# OY WITH THE COLORS ALREADY!

## FOR FANS OF GILMORE GIRLS

For seven seasons, we followed Rory's and her mother Lorelai's witty banter in Stars Hollow, CT. Through their weekly dinners with Lorelai's affluent family, their not-so-mother-daughter-like relationship, and their interpersonal relationships, we enjoyed watching the show at breakneck speed. Its pace was 20-25 seconds per page of dialogue, twice as fast as most shows of the time! Since the final episode in 2007 Gilmore Girls has been cited by Time Magazine as one of the 100 greatest shows of all time.

This fun pack of pencils is the perfect gift for Gilmore Girl fans. Each pencil is foil-stamped with a fun reference or pun related to the hit TV series.

Do you remember when Rory was late for school because she didn't hit a deer, that deer hit her? Did you laugh out loud when it was revealed that Jess' black eye wasn't from a fight but he was instead attacked by a swan? What about that bizarre musical? What even was that? Did you say, "finally" when Luke and Lorelai kiss for the first time after the lengthy will they / won't they trope? Can we agree that "people are being particularly stupid today" is not only hilarious in Michel's delivery but has some real-world application? If you've ever needed coffee with a shot of cynicism...this set is for you.

# THE REAL HOUSEWRITES

FOR FANS OF THE REAL HOUSEWIVES

The Real Housewives is an international reality television franchise that consists of 11+ series in the United States and 15+ international series. # STRANGER COLORS

**FOR FANS OF STRANGER THINGS  
SEASON 5 COMING SOON!**

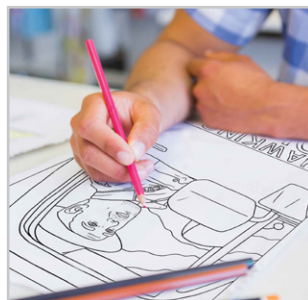

Stranger Things broke into our homes and unlocked some serious nostalgia in July 2016. The story follows a group of friends living in Hawkins, Indiana as they try to find their friend Will who has been abducted by a monster his friends call the Mindflayer. We're introduced to Eleven, a mysterious girl with psychokinetic powers who ultimately saves Will and the town of Hawkins. The series has received critical acclaim for its characterization, pacing, atmosphere, acting, soundtrack, directing, writing, and homages to everything 1980s. The show won 6 Primetime Emmys, a SAG award, 2 American Film Institute awards, a Critic's Choice TV award, and 3 People's Choice awards. Good news for us, there's more to the story.

None of us can walk past Eggo's in the frozen section without thinking about Stranger Things. When the light flickers in your house do you tell yourself it's just a power surge, not the Mindflayer coming to get you? Is Hopper your favorite character because he embodies your attitude of don't speak to me before my coffee? On a scale of manageable to Joyce Byers, how's your stress level going? Ever had a nosebleed and secretly wondered if you could now move stuff with your mind? Do you stand by the philosophy friends don't lie? If things ring true for you then grab your friends, open that curiosity door, and get this pack.

# GAME OF TONES

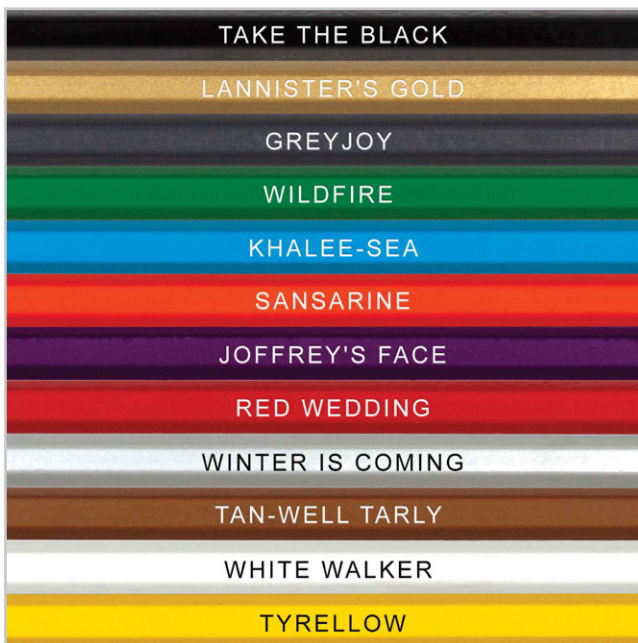

## FOR FANS OF GAME OF THRONES

George R.R. Martin gave us A Song of Fire and Ice. Then David Benioff and D.B. Weiss gave us a visual representation of our favorite book series with Game of Thrones. We eagerly watched every episode wanting to know what was coming next. From Westeros to Essos we were along for the ride. The series is not only loved by fans but the critics as well, scoring 59 Primetime Emmys over the 8 season run. Many critics even went as far as to say it's one of the best television series of all time. Not bad for a show with...wait let me count...a bazillion characters!

I think we can all remember the excitement we felt when the opening credits song played on our TVs for that very first episode. From there we were hooked and couldn't look away. Those of you who were new to the world of Westeros were naive in choosing a favorite character. That Ned Stark was really going places right? Till he wasn't. We watched characters we loved fall and characters we hated redeem themselves. You cheered when Daenerys walked out the flames reborn and with three new additions - hell yeah, DRAGONS! We all got misty when we discovered the origin of Hodor. He deserved better. Not everyone loved the ending of this series but we didn't let it ruin the adventure it took us on. It's the journey, not the destination, right? The night is dark and full of terrors, arm yourself with this set!

# COLORING BAD

## FOR FANS OF BREAKING BAD

Breaking Bad took the world by storm in 2008. Following the success, we were given a prequel to the series, Better Call Saul and later in 2019 a Breaking Bad sequel movie, El Camino. Breaking Bad ran for 5 seasons where we watch the downfall of a high school chemistry teacher from Albuquerque, New Mexico diagnosed with terminal stage-three lung cancer as he turns to a life of crime in an attempt to leave a financial safety net for his family before he succumbs to his cancer. Since the series ended, in 2013, it has been called one of the greatest television series of all time by critics.

Can we all agree that this show went off the rails almost immediately? But that's why we love it! From that first scene of Walter in the desert missing his pants toting a gun to that ending scene, when...well we know what happens. Was anyone else horrified when Gus showed up on the screen with half his face completely gone? What about that severed head on the turtle? Did it break your heart when Walt Jr. finally told his dad to essentially drop dead? Were you mildly tickled by when and where Hank figures out who the drug kingpin is? Did this make you want to go rewatch the series again? If so, this one's for you!

# EXOTIC COLORS

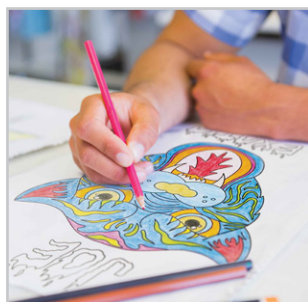

## FOR FANS OF TIGER KING

This series follows Joe Exotic aka Tiger King, the eccentric owner of the Greater Wynnewood Exotic Animal Park, and his bitter feud with Big Cats Rescue CEO, Carole Baskin. Later in the series, we are introduced to events leading up to Exotic's conviction under federal murder-for-hire statutes, when it comes to light that he hired a hitman to murder Baskin. Convictions also include violations of the Lacey Act (a conservation law in the United States that prohibits trade in wildlife, fish, and plants that have been illegally taken, possessed, transported, or sold), and the Endangered Species Act (a law in the United States for protecting imperiled species from extinction). This resulted in a 22-year federal prison sentence and one hell of a ride rarely seen on television. If you haven't seen it yet, buckle up because the ride gets bumpy.

Have you ever just looked at a big unexpected bill and thought to yourself, "I'm never going to financially recover from this?" Anytime something inconvenient happens do you blame that bitch down in Florida? Are we all in agreement that Carole definitely killed her husband? Did Joe bring back the mullet or can we go ahead and let that hairstyle stay in the 1980s where it belongs? Say what you will about this man but he lived his life unapologetically authentic to himself. Join the chaos and get your set.

# NOVEL HUES

## FOR FANS OF LITERATURE

Classic literature is considered “classic” because it can be reinterpreted and continuously renewed for new generations of readers. Classics endure, and their stories, as varied as the personalities of the authors themselves, engrain themselves into our pop culture and collective consciousness.

The best works are often both relatable and aspirational. We see a part of ourselves in the characters as we watch them arc and we’re inspired by these conjured worlds that are filled both with adventure and lessons learned.

If classic literature is something you hold near and dear, this pack of Novel Hues colored pencils is for you, as it features the classics that shaped us into the people and the book lovers we are today.

# NURSE COLORS

FOR FANS OF NURSES

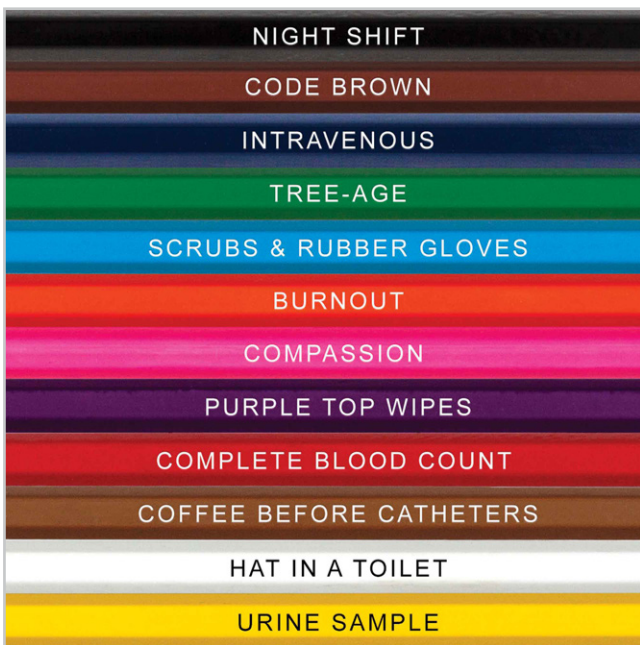

Nursing is one of the noblest and important professions out there. It is believed that nursing has been around since 300 A.D. These selfless people have been taking care of us like we were their own ever since. I think we can agree nurses do not get enough credit for what they do every day. We can thank Florence Nightingale for advocating in the 1850s for sanitary living conditions for patients, drastically lowering fatalities associated with infections. In 1860, she opened a nursing school that paved the way for education that has since morphed into modern-day nursing.

This fun pack of pencils is the perfect gift for the nurses out there. Each pencil is foil-stamped with a fun reference or pun related to nursing.

Ever dreaded going to work because it's a full moon? Have you had to clean up bodily fluids without any thanks? Did you ever drink so much coffee during your night shift that you felt like you could power lift a hospital bed? Have you ever had a nurse who finally made you feel heard? # COLOR WARS

## FOR FANS OF STAR WARS

Star Wars took us all on the adventure of a lifetime starting in 1977. It quickly became a worldwide pop culture phenomenon now boasting 14 live-action films, numerous television series, comic books, novels, video games, and that one holiday special. You'd be hard-pressed to find someone today that isn't at the very least aware of this franchise. There is something for everyone in this universe, the underdog that saves the day, a strong women lead, a scruffy scoundrel doing what he has to, a woolly sidekick, sympathetic villains, villains we hate, a frustrating mentor, space politics, and let's not forget the light saber fights!

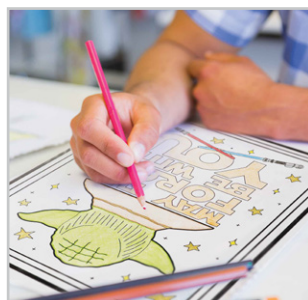

First things first, Han shot first and I will not entertain any naysayers. Do you remember the wonder you experienced when you saw your first film? Have you made the Kessel Run in less than 12 parsecs? Can you speak Wookiee? Did Vader's reveal utterly blow your mind? Ever called someone a stuck-up, half-witted, scruffy-looking nerf herder? I know you've totally tried to move something with The Force, don't lie. Did you ever get in trouble for smacking your sibling with a stick during an epic saber fight in the yard? If they trained in the way of the Jedi it wouldn't have happened, just sayin'.

If any of this brought back the joy and wonder from your childhood this set was made for you. Get yours and join The Rebellion today!

## FOR FANS OF MINECRAFT

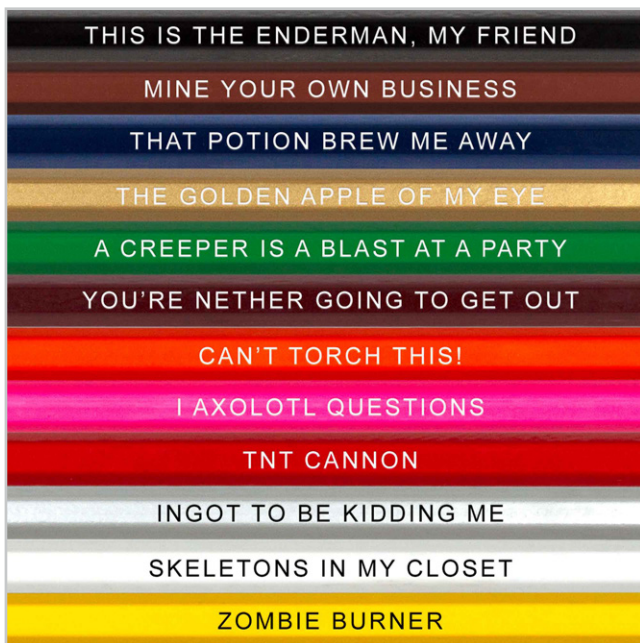

It's only been about 11 years but let's take a second to pause and thank this blocky world for saving many of us from boredom. It has let us release our wildest fantasies of creativity by building landmarks and structures that would never work in the real world. It granted us the satisfaction of working with our bare hands and living off the land...all from the comfort of our own homes.

This fun pack of pencils is a perfect gift for any fan of the game! Each pencil is foil-stamped with a fun reference or pun related to your favorite characters, npcs, and locations in the game.

## FOR FANS OF POKÉMON

The 90s gave us Pokemon, and sure, it sounded weird at first. You're telling me that humans can kidnap little monsters, train them, then make them battle each other for sport? Yes? Ok - SIGN ME UP! Since then, the franchise has transformed into not only video games but shows, manga, and a card game. 122 games and counting, a series that is still running, and countless manga allow us to continue the goal of catching them all.

This fun pack of pencils is a perfect gift for any fan of the franchise! Each pencil is foil-stamped with a fun reference or pun related to your favorite creatures in the Pokemon universe.

I still remember how it felt when facing the difficult decision of choosing your starter in that first game. Who'd you pick? Remember the feeling of loss when accidentally using your one and only master ball on a stupid Caterpie? Can you feel the frustration of getting destroyed by the first gym leader on your journey to the Pokemon League? Remember fighting off a mob boss and his cronies to run them out of the region? And don't get me started on that gym leader with all the ghost types in that creepy town. Am I right? If this flooded your mind with all kinds of great memories...then this set was made for you.

## FOR FANS OF THE BEATLES

It's rare to encounter anyone who hasn't heard of The Beatles. They have been a staple in our music libraries and pop culture for over 60 years, spanning a core catalog of 13 studio albums, numerous films, and documentaries, and countless sold-out concerts. They are the best-selling music act of all time with records for the most number-one albums on the UK charts and the most number-one hits on the Billboard Hot 100. They boast 7 Grammys, 4 Brit Awards, and an Academy Award. They were inducted into the Rock and Roll Hall of Fame in 1988 and between the years of 1994 and 2015 they were each individually added for their own accomplishments.

How old were you when you first heard The Beatles? Have you been a fan since the beginning? Were you introduced to them via friends or family? Are they a subject you bond with your grandparents over? Has it been a goal of yours to walk Abbey Road much like the iconic album cover? Have you ever had a rough day and had to tell yourself to "let it be"? Ever seen a yellow submarine? I haven't. Do they even exist?

Whether you're a casual listener or a superfan there's plenty to go around. Much like their music style, you can add variety to your art with this set.

## FOR FANS OF MARIJUANA

Some call it weed. Others call it pot, or Mary Jane, or bud... ganja, herb, chronic, grass, or dope. It's been a hot button issue since the Regan era, but in recent history, marijuana use in the country is slowly becoming mainstream and it's now a legitimate aid in helping millions of people with various ailments. So if you enjoy toking, or blazing, or cheeching, smoking trees, mowing the grass, burning one down, firing one up, hitting the hay, or simply...getting stoned, read on.

I'm sure many of you can remember the first time you lit up and zoned out to a movie then proceeded to empty the refrigerator like a ravenous raccoon. Have you ever thought you were deaf only to realize the TV was on mute? Anyone else poured water on the bowl of cereal you were so excited about? Have you ever realized you accidentally turned on the foreign language dub...10 minutes into the movie? Have you ever texted someone asking if they've seen your phone? Pause for a second...that last one was a thinker. Come on, admit it!

Here's to the times you didn't pass that test to get that job, or the time you got comfortable only to realize your favorite lighter is finally dead, or the time you got a bogus ticket for your car smelling slightly skunky. Is any of this hitting home? That means it's time to come and poke some fun at yourself with this set.

# DRUNK COLORS

FOR FANS OF BOOZY BEVERAGES

Alcohol has been around since cavemen weren't just exhibits in a museum. A discovery of Stone Aged jugs suggests that dating back as far as 10,000 B.C. that even our caveman brethren were knocking them back. Granted these days our drinks of choice have become more sophisticated. We've got so many choices at our fingertips, wine, beer, champagne, malt liquor, hard liquor. There's something for everyone.

Remember the first time you ever lied to your parents about staying over with your friend when really you were in a field somewhere random with the spins? Ever had your drinks hit you like a ton of bricks after getting up out of your chair? I know we all remember our first shot, it was terrible! It burned and made you struggle to hold it down. Well look at us now, all grown up and responsible... but we know damn well we've all made some mistakes when it comes to enjoying alcohol. At least we got some good stories out of it!!! Being responsible is the key but this set isn't about that. This set is about getting a little too excited after not going out for a while. This set is about enjoying social time with friends with bottles that won't stop coming. This set is about feeling like we're invincible...but then inevitably paying for it the next day. If this is relatable, raise your glass, give a toast, maybe pour one out for a friend, and grab a set.

# COLORFUL LANGUAGE

**WARNING: ADULTS ONLY**

Foul language has been around since the dawn of time... but it's WAY more creative now than when Gronk hit his head on the cave and yelled "UGH." Bad words are now vital to life. Banging the steering wheel while screaming "Bananas Foster!" just doesn't feel right. Up your arsenal with this set and sprinkle a little more razzle dazzle into your conversations and insults.

This vulgar pack of pencils is a perfect gift for anyone who yells after stubbing their toe in the dark. Each pencil is foil-stamped with a hilarious vulgar word or phrase sure to surprise even the most foul of mouths.

Remember the sting of that smack you got for cursing in front of your parents for the first time? Are you chuckling right now because you kept doing it anyway? Ever had a word come out of your mouth that made you stop and think, "What is wrong with me?" Then you laughed anyway because let's face it...these words are funny!
