

Introduction

This document describes how to configure Quick SCADA application:

- Install License Control.
- Generate Site Code.
- Install License Generator.
- Generate Site Key.

Install License Control

1. Run Indusoft **as Administrator**. (Make sure you right click on the Icon and select run as Administrator or this will not work!)

2. Run the application.

3. On the first run, you will get the message “License not found.” on the main screen.
