

INTRODUCING THE SHATTERIZER™ TO USA

1. Compatible with shatter, wax, resin, rosin, budder, crumble, bubble hash, distillate and most cannabis concentrates. Please do not use e-juices or oils of that viscosity.
2. Borosilicate glass top cover and resin mouth piece are uniquely designed to maximize flavour and reduce vapor temperature for a smoother vaping experience. Aluminum Silver and Aluminum Black top covers are matte on the outside and smooth on the inside, for durability and high-quality vaping everywhere.
3. Comes standard with 2 Quartz Dual Coils (QDC) for great tasting perfect clouds. CTECH Ceramic Coils are available in 5 packs.
4. Comes with a coil cap which is designed to help airflow and preserve product.
5. Long lasting battery is made of lithium-ion (18350), with 1100 mAh and runs on an electrical resistance OHM of 0.75.
6. Adjustable 3 Stage Variable Voltage battery ranges in temperature settings between: RED the lowest setting (3.5 V or 16 Watt), BLUE the medium setting (3.8 V or 19 Watt) or WHITE the highest setting (4.2 V or 23.5 Watt).
7. Offers 15 second continuous heat option with an automatic shutoff.
8. Conveniently added magnetic built-in silicone lined wax storage container at the base of the Shatterizer.
9. Micro USB port with Pass-Thru Technology and a USB Charging cord.
10. The Shatterizer comes fully assembled and starter kit includes a storage box and dab tool.

SHATTERIZER COMPONENTS

Magnetic Built-In Silicone Lined Wax Storage Container

At the bottom of the Shatterizer, there is a magnetic built-in silicone lined wax storage container to make travelling with your product much easier. This feature has been carefully designed to be attached and removed with ease.

Borosilicate Glass Cover and Resin Mouthpiece

The borosilicate glass cover and resin mouthpiece have been uniquely designed to maximize flavour and reduce vapor temperature for a smoother vaping experience.

Silver and Black Aluminum Tops

Aluminum Silver and Aluminum Black top covers are matte on the outside and smooth on the inside, for durability and high-quality vaping every where.

SHATTERIZER COMPONENTS

Quartz Dual Coils (QDC)

The Shatterizer comes standard with 2 Quartz Dual Coils for perfect clouds, every time. Replacement coils are available in 5 packs.

CTECH Ceramic Coils

The Shatterizer has CTECH Ceramic Coils available in 5 packs.

Coil Cap

The Shatterizer comes with a coil cap which is designed to help airflow and preserve product.

Long Lasting Variable Voltage 3 Stage Battery

Simply click the Shatterizer's silver power button 5 times rapidly to turn on and 3 times to switch between voltage temperature settings. This design allows you to customize the heat setting to your personal preference for maximum enjoyment.

- 1100 mAh Lithium-ion Variable Voltage 3 Stage battery (18350)
- 3.5 V = 16 Watt = RED is the lowest temperature setting
- 3.8 V = 19 Watt = BLUE is the medium temperature setting
- 4.2 V = 23.5 Watt = WHITE is the highest temperature setting
- Offers 15 second continuous heat option with an automatic shutoff.
- 15 Second continuous heat, with auto shutoff

Micro USB port with Pass-Thru Technology and a USB Charging cord

The Shatterizer has a Micro USB port with Pass-Thru Technology and comes with one standard USB charging cord.

Dab Tool

The Shatterizer comes with dab tool to help load your product onto the QDC or CTECH coils.

PACKAGE CONTENTS

- 1 - Shatterizer Atomizer
- 1 - Shatterizer Battery
- 1 - Extra QDC Coil
- 1 - Magnetic Silicone Lined Wax Storage Container
- 1 - Micro - USB Cord
- 1 - Dab Tool
