Small Version Raised

General Notes

- For the most up to date and current instructions, please visit our website at www.rbcomponents.com
- Please read all instructions thoroughly before starting installing this product.
- Headliner shelf is easier to install with the help of a second person.

Parts List

- | | |
|--------------------|------------------------------------------------------------|
| • (1) 63009-49-01 | 2019 + Sprinter Van Headliner Shelf – Small Version Raised |
| • (2) F - Brackets | Front Mounting Brackets (go behind plastic shelf) |
| • (2) R -Brackets | Rear Mounting Brackets |
| • (8) 60951-568 | 6mm x 16mm Flat Head Bolt |
| • (8) 60951-383 | 6mm Nylon Lock Nut |

Tools Needed

- 10mm open end wrench
- 10mm socket wrench
- #20 Torx (removing coat hangar)
- #30 Torx (removing sun visor and forward upper mounting screws)

Approximate Installation Time

- With two people helping (recommended) 20-30 min

Installation

- 1) Start by removing the plastic cover for the coat hanger. This will reveal a #20 torx head screw. This will need to be removed and replaced using the longer mounting bracket as shown. Do this to both sides.

- 2) Using a #30 Torx wrench remove the bolt in the back of the plastic handle. Place the smaller front bracket behind the plastic factory grab handle as shown. Thread the bolt into place but do not tighten at this time. Do this to both sides.

- 3) Before installing the headliner swing back the rear mounting bracket. This will make it easier when the headliner is put in place.

- 4) With the headliner resting on the mounting brackets, secure the headliner by using the 8 pcs. of the (#60951-568) 6 mm x 16 mm Flat Head Bolt and 8 pcs. of (60951-383) 6mm nylon locknut. The head of the bolt should be facing downward with the nylon locknut above the headliner shelf.
- 5) With brackets securely fastened to the headliner now go back and tighten the front (#30 torx wrench) and rear mounting bracket (#20 torx wrench). Finally install the plastic clothes hanger.

Installation is now complete. If you have any further questions on this or any other RB Components product please feel free to reach us directly (562)802-1200.
