

Air-Sanitizing Circadian Desktop Lamp

Air-permeable lampshade with ViraPure® self-cleaning bacteria for reducing airborne bacteria, viruses, fungi and allergens

Circadian Light Source (blue-depleted LED & blue-enriched LED)

Forced air purification through built-in fan

Touch-Sensitive Control Panel

✓ The First Desktop Lamp Featuring Circadian Lighting + Air Disinfection

Circadian lighting simulates the rising and setting of the sun, gently adjusting throughout the day from the blue to the red spectrum. It can be particularly beneficial for those who suffer from Seasonal Affective Disorder, Post Traumatic Stress Disorder, Dementia, sleep disorders and jet lag, as well as anyone who desires better health. With ViraPure® high-density photocatalyst coated on the lampshade, this lamp is designed to improve air quality, reduces the chance of spreading the air-transmitted diseases (including COVID-19 virus) and helps adjust your body's circadian clock – enhancing your productivity and improving your health. A third-party test reports show a remarkable 99.5% kill rate against H1N1 influenza virus in a 30m³ test chamber.

✓ Multi-Use Functionality

⊕ Circadian Light Setting

Circadian light setting with blue-enriched daylight for activating biological activities and blue-depleted night light for calming down biological system resulting in better sleep quality and faster patience recovery

⊕ Air-Sanitizing

ViraPure® replaceable lampshade filter and 2 fan speeds to keep the air clean and circulating

⊕ Multiple Lighting Needs

3 color modes and 2 brightness levels to ensure you can always get the most suitable light color according to different uses

⊕ Built-in USB Charging Ports

Comes with two easy access USB ports so that you can charge your mobile phone, tablet, laptop and other electronic devices

Specifications

Input Voltage	100-240VAC at 50/60Hz
Power Consumption	6W (5W for LED)
Color Temperature	2700K/4000K/5000K
Light Output	800lm
CRI	> 80
Power Factor	0.5
Noise Level	37dB
Cover Area	100 sq. ft.
Air Flow	29CFM
Operating Temperature	20°F ~ 122°F
Dimension	Ø4.7" x 12.5"
Warranty	1-year

* This product is not intended to be used as a medical device. It does not guarantee 100% removal of airborne pathogens.
