

Solar Mini Street Lights

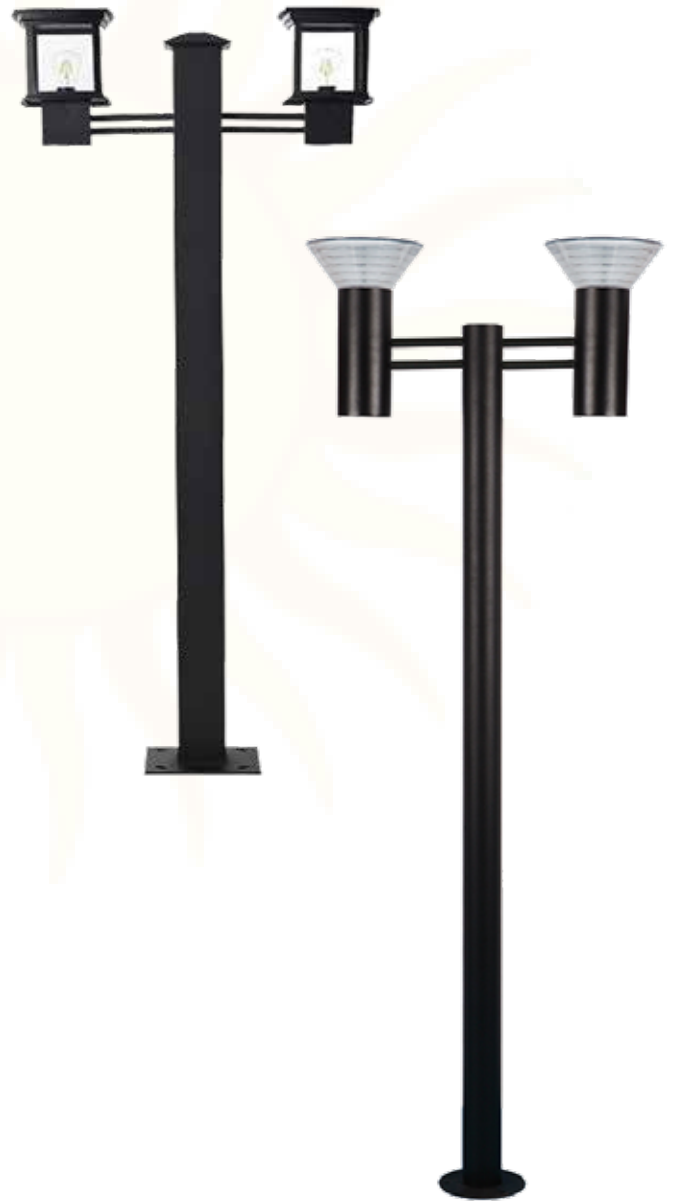

The Solar Mini Street Lights are produced at a state-of-the-art production line and assembled into high quality, long-lasting lighting. All of our mini street lights include a reinsured warranty, making them one of the best values in the solar lighting industry.

These lights produce zero carbon dioxide emission making them a safe, environmentally friendly lighting choice to help preserve the environment. They require 6 hours per day charging time and can work for up to 23 hours a day on a full charge.

Automatic day and night detection and smart power management, and a Lithium LifeP04 battery.

Features

- IP65 Waterproof Rating
- Smart Power Management for Rainy Days
- Automatic Day and Night Detection
- Lithium LIFEPO4 with Lifetime up to 12 Years
- Grade A Monocrystalline Solar Panels
- High-brightness LED with 50,000 Hours Lifespan
- Attractive Black / Grey Finish
- Powerful Philips LED Chip

Advantages

- 0 Carbon Dioxide Emissions
- Corrosion Resistant Die Cast Aluminum
- Up to 23 Hrs Working Time

Applications

- Garden / Residence / Courtyard
- Main roads / Avenue
- Parking Lot / Mining Area

Power Settings

- 4.5AH 6.4V per lamp
- Charge 6 Hrs per day

Solar Mini Street Lights

The Most Durable Solar Lights

Certified by CE and ROHS with an IP65 weather protection rating Solar Mini Street Lights are reliable and enduring with high-quality design, 50000+hours lifespan and super bright illumination.
