Product

DOUBLE CUT CARBIDE BURRS SE - OVAL

1. Description of Product

Dimensions(in):	7/8"
Type:	SE-5
Abrasive:	Carbide Burrs
Part Number:	CS-SE5D
OD:	1/2"
Shank:	1/4"
Cut:	Double

1. Application

- Specially designed for the deburring of metal
- For use on weld grinding, cast iron, steel, stainless steel, etc.

2. Operating instructions

- Use the proper machine
- Insert the burr into the tool as deep as it will go before securing
- Tool should be running at full speed before engaging too with material
- Always use caution when starting to cut
- Do not use excessive pressure
- Excessive pressure can cause chipping or decreased performance
- Excessive pressure or hitting increases the chance of head breakage

3. Handling

- Handle burrs with caution to prevent hitting on hard surfaces
- If the burr appears to have a fracture in the head or shank, discontinue use Immediately

4. Safety information

- Never exceed speed marked in catalog
- Fully PPE Safety equipment suggested (gloves, hearing protection, respiratory protection, safety glasses)
- Improper use can cause severe injury
- Check that the tool is secured and that there is no vibration or play in the tool before starting
- This product is for deburring not for cutting
- Do not overheat tool, use intermittently to keep from over heating

5. Storage

- Store burrs in their original packaging
- Humidity and moisture can lead to rusting of the steel shank

6. Packaging units

- Box Quantity: 1
- Case Quantity: 10
