

Noble Roots® Vitamin Enriched Lip Balm

Protect your lips with this moisturizing lip balm enriched with vitamins A, C and E. This formula adds just the right amount of shine for naturally smooth lips.

Project Level: Easy

Yield: 5 Balms

Quantity	Product Name	Percentage
1 ½ TBSP	NobleBasics™ Natural Lip Balm Base	95.5%
1/8 tsp	EI High Oleic Sunflower Oil	2.5%
5-6 drops	Vitacon® ACEM	1.0%
5-6 drops	NobleScent™ Almond Natural Fragrance Oil	1.0%

Yield: 50 Balms

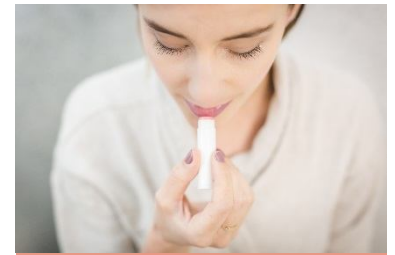

Quantity	Product Name	Percentage
1 Cup	NobleBasics™ Natural Lip Balm Base	95.5%
1 tsp	EI High Oleic Sunflower Oil	2.5%
½ tsp	Vitacon® ACEM	1.0%
½ tsp	NobleScent™ Almond Natural Fragrance Oil	1.0%

Instructions:

1. Start with [NobleBasics™ Natural Lip Balm Base](#) in a glass bowl. Mix with spoon or mixer until softened.
2. Add [EI High Oleic Sunflower Oil](#), [Vitacon® ACEM](#) and [NobleScent™ Almond Natural Fragrance Oil](#). Mix until evenly distributed.
3. Fill lip balm pucks or container of your choice.
4. Let sit overnight to harden or refrigerate.

Make this recipe your own by changing out the essential oil or by adding a flavor or color. Add more or less essential oil depending on the aroma you want in the final product. Keep in mind the more oil you add the softer the finished product.

This recipe is provided in good faith. It is only a suggested formulation and is not a commercialized product. As such, it has not been tested for performance, efficacy or safety. Before commercialization, you should thoroughly test the formulation or any variation of it, including how the formulation is packaged, to determine its performance, efficacy and safety.

Unique Features

- [NobleBasics™ Natural Lip Balm Base](#) combines the moisturizing properties of butters and waxes with jojoba esters, giving your lips protection from everyday pollutants.
- [NobleScent™ Almond Natural Fragrance Oil](#) adds fragrance naturally allowing for a fragrance-free claim. It contains 10% Sweet Almond Oil and 10% Almond Seed Extract
- [Vitacon® ACEM](#) is an economical way to add vitamins to your formula without the expense of stocking individual vitamins.
- [EI High Oleic Sunflower Oil](#) is added for oxidative stability.
