| | |
|--|---|
| Endangered of Wild Fauna and Flora (CITES) | concerning importation of these products. These products do not contain any material ingredients on the CITES list. |
| Dyes and Pigments | These products do not contain any dyes or pigments in the manufacturing of. The dehydrated products are made from 100% aloe and contain no additives of any kind. The liquid products contain only those preservatives identified on each individual specification sheet. |
| Endangered Species Statement | These products are produced with plant species of <i>Aloe vera (L.) Burm f (synonym: Aloe barbadensis Miller)</i> . Aloe Barbadensis Miller is not on the following Endangered Species List: United States Endangered Species Act List Red List of Threatened species CITES – Convention on International Trade in Endangered species of Flora and Fauna |
| Ethylene Oxide (EtO) Sterilization | The manufacturer does not use the EtO sterilization method at its manufacturing facility. None of these products are EtO sterilized. |
| GMO | These products are not genetically modified not derived from a genetically modified organism as defined by the EC regulations 1830/2003/EC on labeling and traceability and 1829/2003/EC on genetically modified food and feed and their amending legislation. |
| Gluten | These products do not contain gluten. |
| Heavy Metals | These products are tested for heavy metals. Sampling and testing frequencies are being performed according to the American Society for Quality: ANSI/ASQ Z1.9-2003 as recommended by the American National Standards Institute. Testing is performed via an NELAP and A2LA accredited laboratory using the heavy metal analysis methods EPA 6020 7471A. The limit for heavy metals on all these products is less than 10 ppm. |
| Nano Materials | These products are not manufactured, processed or packaged with any nanomaterial type products as described in EU directive CE 1223/2009 for Cosmetics. |

| | |
|--|---|
| Parabens | These products contain no parabens in the manufacturing of. The dehydrated products are made from 100% aloe and contain no additives of any kind. The liquid products contain only those preservatives identified on each individual specification sheet. |
| Pasteurization Method | The manufacturer uses a High Temperature Short Time (HTST) pasteurization method during the manufacturing of these products. |
| Perfluorochemicals (PFC's) | These products are not manufactured, processed or packaged with any Perfluorochemical (PFC) type products including the following: Perfluorooctane Sulfonate (PFO's; C ₈ F ₁₇ SO ₃) Perfluorooctanoic acid (PFOA; C ₈ F ₁₅ O ₂ H) Perfluorobutanoic acid (PFBA; C ₄ F ₇ O ₂ H) |
| Pesticides | The Aloe vera plants from which our aloe is processed are grown pesticide free. The dehydrated products are made from 100% aloe and contain no additives of any kind. The liquid products contain only those preservatives identified on each individual specification sheet. |
| Phthalates | These products are not manufactured, processed or packaged with any phthalate type products including the following: Dimethyl phthalate (DMP) Diethylphthalate (DEP) Di-n-butyl phthalate (DBP) Benzyl Butyl Phthalate (BBP) Bis (2-ethylhexyl) phthalate (DEPHP) Di-n Octylphthlate (DNOP) |
| Polycyclic Aromatic Hydrocarbons (PAH) | These products are solely derived from Aloe vera (Aloe barbadensis miller). No Polycyclic Aromatic Hydrocarbons are added during the manufacturing of these products. |
| Preservatives | No excipients/preservatives are added to the powdered products. The dehydrated products are pure, unadulterated aloe vera products. The liquid products |

| | |
|---|--|
| | contain only those preservatives identified on each individual specification sheet. |
| Psychotropic and Narcotic Drugs | These products are solely derived from either the whole leaf or the inner leaf fillet of Aloe Vera (Aloe barbadensis miller). No Psychotropic or Narcotic Drugs are present in or used in the manufacturing of these products. |
| Solvents | These products are solely derived from Aloe vera (Aloe barbadensis miller). No solvents are added during the manufacturing of these products. |
| Vegetarian/Vegan | These products are stated to be Vegan including all processing aids. Vegan as defined as follows: Vegan – a product that does not contain any animal by products of any kind. |
| Volatiles | These products do not contain any Volatile Organic Compounds (VOC). |
| Ascorbic acid (color stabilizer), citric acid (acidifier), sodium benzoate & potassium sorbate (bacteriostatic preservatives) and sodium bisulfate (anti-oxidant) may be used in one or more combinations as described on associated specification sheets for liquid products only. | |
