

LHB

LED Full Body High Bay

STANDARD

OPTIONAL

DESCRIPTION

The LHB is an LED full body high bay that is a quality and economical solution for commercial lighting needs. Perfect for applications such as garages, warehouses, gyms, manufacturing space, and large retail spaces. With an enclosed power supply and covered optics, these light fixtures are designed for durability in commercial or industrial applications. They are designed to save energy and lower maintenance costs. The LED light engine inside this fixture uses 30% less power to produce the same amount of light as a fluorescent fixture. This is a low maintenance solution that eliminates the need to replace power supplies and light bulbs because the light source is integrated in the fixture.

CONSTRUCTION

The LHB is constructed out of heavy gauge steel.

OPTICAL SYSTEM

Choice of no lens, clear lens (option CLL), or diffusing lens (DIL). Professional light distribution technique used for light transmission rate of lens is over 90%.

ELECTRICAL SYSTEM

Electronic drivers are standard for 120/277V Applications. Step-Down transformers are required for 347-480V Applications. Long-life LED system rated for >120K life hours (L70 @ 25°C). Metal gear tray for internal LED driver. Complies with federal energy efficiency standards.

LISTINGS

Fixtures are UL listed and IC rated for contact with insulation and can be installed in damp locations. They are DLC listed to qualify for commercial lighting rebates and special incentives in certain areas.

FINISH

High gloss, electrostatically applied, white powder coat finish, average minimum reflectance 92%

LED

80 CRI or 90 CRI LEDs available in 3000K, 3500K, 4000K and 5000K. Life is 100,000 hours at 70% lumen maintenance.

WARRANTY

5 - Year Limited Warranty. Complete warranty and terms located at: www.aelnow.com/warranty
