# **Ametrix**

### DESCRIPTION

The Arrowlinear fixture is a linear asymmetric system of lighting designed for wall washing and signage type applications. The fixture has multiple lengths and configurations, extruded aluminum housings, die cast end caps and mounting arms, and diffused acrylic lens. It is a simple and effective linear asymmetric lighting solution.

### **SPECIFICATION FEATURES**

#### Construction

Housing is corrosion-resistant. Type 6063-T6 aluminum extrusion with die-cast aluminum end caps. End caps are secured by concealed stainless steel fasteners. Housing, end caps, and lens are sealed with single, closed cell silicone gaskets. Stainless steel hardware is standard. Reflector is constructed from 22 gauge cold rolled steel and pre-painted reflective white.

A slightly diffused acrylic lens is standard, constructed of impact-resistant, U.V. stabilized virgin acrylic to prevent discoloration.

2-7/8"

[73mm]

3-5/8

[92mm]

### Reflector

Fixture includes the Opti-Lock asymmetric reflector system, constructed of specular Alanod 2000GS aluminum.

2-1/8" [54mm]

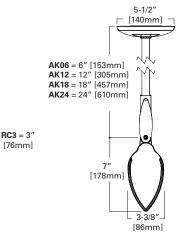

[178mm]

### **Electrical**

Use 90° supply wire (provided by others). Linear Fluorescent - Medium Bi-Pin and Mini Bi-Pin. Ballast is integral to the luminaire and includes quick-disconnect to meet NEC and CEC code requirements for disconnecting power to the fixture during service and maintenance. Lamps available from Ametrix at additional cost. Fifthlight is not available in all options; consult factory for more information.

### Mounting

Fixture includes Slide-N-Mount ™ adjustable, lockable, mounting arms

See Run Length Configuration Chart

constructed from Type 383 die-cast aluminum. Support structure by others.

### Finish

Fixture housing is coated using electro-statically charged polyester powder coat paint for superior protection against fade and wear. Standard colors include white, silver, black, and bronze. Consult factory for custom colors.

#### **Aiming**

Fixture includes the PointGrab2 ™ lockable aiming system, providing minimum 180 degree vertical adjustment of the fixture housing in 5 degree increments. The aiming feature locks securely in place by means of a stainless steel locking mechanism.

### Compliance

UL/ cUL listed for use in damp locations. (Only 4ft length listed for wet location and IP66). When specified without a lens, the fixture is UL/ cUL listed for dry locations only.

Note: Consult factory for alternate row configurations.

## **TECHNICAL NOTES**

- 1. See Run Length Configuration Chart for details.
- 2. Indoor rows utilize maximum 12' sections.
- 3. Outdoor rows utilize maximum 8' sections.
- 4. Required for outdoor application and natatorium environments.
- 5. Requires acrylic lens option.
- 6. Lamp not included available at additional cost.
- 7. Natatorium rows utilize maximum 8' sections.
