LIGHT SOURCE

Long life name brand LED chips and boards to ensure the highest of quality while providing even and smooth illumination throughout our luminaires.

Our luminaires are available in 2700K, 3000K, 3500K and 4000K color temperature .

Optional 80CRI or 90CRI available in all CCT options.

LUMEN MAINTENANCE

The projected lumen maintenance of the name brand mid-powered LED's are projected to maintain 80% (L80) of their initial output for +80,000 hours.

CONSTRUCTION

The housings are constructed of (6063T5) extruded aluminum. Our internal joiner system is designed to the highest of standards to ensure our precision cut housings align and fit tightly without light leak. Our precision fitting end caps are constructed out of die cast aluminum.

FINISH

Polyester powder, low gloss textured paint finish applied after a multi-stage pretreatment. Standard luminaire finishes include white, silver, and black. Custom color options are available. (Consult Factory).

OPTICS

Andilic Light Guide Technology; Direct & Indirect Batwing Distribution.

DRIVERS

All of our luminaires come standard with 1% dimming and THD <20% utilizing 0-10v constant current protocol. 120v/277v is standard with the option of 347v. For maximum remote distance see chart below.

EMERGENCY

An integral factory installed 10 watt emergency battery pack contained in remote driver enclosure. Emergency circuit and Night Light circuit capable by connecting to appropriate circuit in the field.

LUMINAIRE LENGTH

Our AX.5 Pendant Direct Indirect luminaire series are available in 4', 6', and 8' individual lengths or continuous row configurations. Continuous row configurations are joined together on-site utilizing the joiner kits provided.

LUMINAIRE WEIGHT

The approximate weight of a four foot luminaire is 16.8 lbs Including end caps assembled.

Remote Driver Distance	
Wire Size	Distance
22 AWG	18 feet
20 AWG	29 feet
18 AWG	46 feet
16 AWG	74 feet
14 AWG	95 feet

Distance is a maximum based on an assumption of a 1V drop across the full distance

PATTERN GUIDE

W. PATTERN CODE	X. X. PATTERN DIMENSIONS	Y. SPOKE CENTER HUB COLOR
Spoke Center Hub - Pattern SPK	Enter length of each segment in pattern separated by an "x" Available choices in lengths of 2, 3, 4, 6 and 8 ft.	AxBxC Black White Silver Custom Colors B W S CC

NOTES

- Spoke Center Hub is non-illuminated.
- Patterns in all cases will require a signed-off submittal prior to release of an order.
- Dimensions for Patterns are based on outside dimensions of the pattern.
- As a standard, the color of the Spoke Center Hub will match the selected housing color; unless otherwise specified.

PAT X H

PAT = Pattern
A x B x C = Length of each segment in Pattern separated by an "x"
@ = Pattern Code (See reference examples)
H = Pattern Orientation

Above code gets entered in "D" LENGTH field of ordering guide.

SPOKE CENTER HUB - SIDE VIEW

SPOKE CENTER HUB - OVERHEAD

STANDARD FINISHES

The AX.5 enhances the aesthetic of any space through flexible color combinations. Choose a white, black or silver housing with 1 of 4 standard end cap colors. Custom colors are also available upon request.

WHITE
Shown with White Housing, White End Cap and Silver Cleat

SILVER
Shown with Silver Housing, Silver End Cap and Silver Cleat

END CAP COLORS

BLACK
Shown with Black Housing, Black End Cap and Silver Cleat

ORANGE
Shown with Black Housing, Orange End Cap and Silver Cleat

DRIVER HOUSING MOUNTING OPTIONS

REMOTE HOUSING

Grid-mountable driver housing with integrated T-Wing mounts.

Remote-mounted driver housing with integrated mounting features, including power feed, canopy, and suspension system. Suitable for exposed conduit, or recessed junction boxes.

STRUCTURE HOUSING

Room side surface-mounted driver housing with integrated suspension mounts. Suitable for solid surface, exposed surface, and grid ceiling.

CONTINUOUS RUN ORDER GUIDES

Please use the following run guides for fixture ordering. If your product will require a submittal, our in-house Application Engineering Team will work closely with you on your project.
