

metro modular

Introducing Barbican's new Metro Modular collection.
Offering endless possibilities, limited only by your imagination.

As a collection of reconfigurable elements, the Metro Modular is available in a diverse range of sizes, shapes and proportions, and offered in a multitude of distinctive finish options. Available up to 100 lumens per watt, these high performance LED fixtures are offered with a variety of mounting options.

Available as both stand-alone fixtures as well as connectable modules, our Metro Modular line makes creating an awe-inspiring fixture simple.

Customized and intricate configurations are easily built using our AutoCAD toolkit, which is available as a download on our website.

For those who would prefer simple product solutions and layouts, we also offer a Preconfigured line of modular fixtures. Select the shape and size from our standard offerings.

As always, there is also the option for you to send us your sketches or drawings and we'll build it for you!
