

Continua direct/indirect LED linear suspended

Features and benefits

Corelite

Smooth. Continuous. Light.

The Corelite Continua™ suspended family offers sophistication and simplicity with its LED optimized contemporary linear direct/indirect design and an innovative approach to seamless continuous illumination. Continua lends itself to wide row spacing, which means fewer fixtures and less energy required to create a balanced luminous environment.

Key Features:

Seamless Design

- Minimal lines and a fully luminous bottom aperture for a clean aesthetic
- Seamless illumination via continuous flexible roll lens along the length of the fixture run
- Extruded aluminum housing with internal joining design for easy alignment, rigid connections, and straight runs without exposed fasteners
- 12ft unit allows for minimal mounting points and connections, which results in reduced installation costs and a minimalistic appearance

Performance

- Lumen packages ranging from 500 to 1,500 delivered lumens per foot
- Efficacy up to 147 lumens per watt. 60% energy savings over traditional fluorescent direct/indirect

- Smooth 112.5° low peak intensity distribution for excellent ceiling uniformity, lower power densities, and wider row spacing
- Choose from a full range of direct/indirect distributions or specify a custom distribution

Versatility

- 4ft, 8ft, and 12ft modular units that can be joined together to create continuous runs
- Variable suspension mounting points – ideal for retrofit applications
- Independent direct and indirect circuiting available – great for A/B configuration, AV mode areas
- 1% 0-10V dimming standard with Fifth Light DALI and Lutron driver options available
- WaveLinx & Lumawatt Pro integrated wireless sensor control options
