DuraQ pilot program

- 1 Select a DuraQ driver enabled LED fixture
- 2 Enter a DuraQ pilot order with promo code provided
- 3 Install and experience the benefits of DuraQ

DuraQ features and benefits

The DuraQ high performance driver is the first of its kind in the lighting industry! Providing a robust design with superior operating life versus today's LED electronic drivers, the DuraQ driver is the go-to solution for long-life lighting needs.

Features

A specialty transformer that regulates the secondary voltage against line and load variation.

Tested and rated to 30kV non-destructive high surge suppression ability.

Low input Harmonics (< 20% THD) and High Input Power Factor (0.97 typ.)

Built in power conditioner

Long operating life (20 years typ.)

Ability to ride-through input power interruption

Does not emit conducted or radiated EMI

Benefits

Protects against Surge and Sag conditions, extending driver and electrical component life.

Eliminates maintenance and warranty costs due to surge failures. Additional surge protector not required.

Improves electrical grid reliability.

Ideal for use in "dirty power" sites and with non-linear loads.

Lower maintenance and warranty expenses.

Eliminates chances of light flickering and on/off interruptions.

Approved for FCC and reduces noise that may affect other electrical components or AC Main.

DuraQ pilot program

TRY it...before you buy it!

Test the performance of Cooper Lighting Solutions' patented DuraQ driver enabled LED products before you pay for them with this 90-day pilot program.

Simple steps to **Power Ahead**

1 Choose LED fixtures

Choose a compatible fixture. For full catalog logic, refer to the product spec sheet for the compatible fixture.

2 Enter order with promo code

Enter order with selections made from above with your local lighting representative. Order must be entered with promo code **"DRQ"**.

3 Install and experience the benefits

- Does not contribute to EMI noise
- Long operating life (> 20 years)
- High reliability
- Robust and scalable system (from 100W -100kW)
- Lower DC ripple
- Reduced SKUs with Multiple voltage configurations using winding taps
- No power interruptions or LED flicker

Cooper Lighting Solutions will allow up to 90-days net payment terms from invoice date, or you can return the fixture (freight prepaid) within 90-days for a credit to the invoice.

DuraQ pilot ordering reference*

Description	Pilot Order	Catalog Number	Quantity	Credit Applicable
LED fixture	Required	Refer to luminaire spec sheets	Up to 3	Yes, if returned within below stated terms and conditions
DuraQ High Performance Driver	Required	Refer to luminaire spec sheets	Up to 3	

*For pilots requiring larger quantities or other special requirements, please contact your sales representative. DuraQ pilot terms and conditions may no longer apply.

Terms and conditions

By accepting any products or services offered through the DuraQ pilot program, Buyer agrees to the following terms and conditions:

- Cooper Lighting Solutions agrees to sell products and services to Buyer for purposes of mock-up and review. Buyer shall not use the products and services for any purpose other than evaluation for continued use and/or purchase of Cooper Lighting Solutions products.
- Buyer must issue a released purchase order in an amount as quoted by Cooper Lighting Solutions. Purchase order must note **"DuraQ pilot"** and specify promo code **"DRQ"**. Purchase order is subject to all standard Cooper Lighting Solutions terms and conditions.
- For lighting agencies, DuraQ pilot orders purchased by your agency should be entered into FLASHPro using your agency's LED account in the sold-to field.
- Standard made to order or stock shipping lead times apply to all products.
- DuraQ pilot orders being billed to the distributor should be entered into FLASHPro by the agent and submitted as normal. Please contact your customer service representative for follow up.
- On-site training, troubleshooting, or labor to install or uninstall pilot program products not included.
- Cooper Lighting Solutions will allow up to 90-days net payment terms from invoice date, or you can return all equipment (freight prepaid) undamaged within 90-days for a credit to the invoice with the exception of any optional cellular data plans.
- Buyer must request an RMA number for product, noting **"DuraQ pilot"** in the RMA request. Returned product must reference this RMA number. Credit will not be issued for product returned without an RMA number.
- To receive a credit, all products shall be returned freight prepaid in the original packaging and in reusable condition. Buyer shall provide the freight tracking number to Cooper Lighting Solutions. Credit will not be issued for sample products damaged during return shipment.
- Credit will not be issued for Sample Product returned to Cooper Lighting Solutions after the allotted ninety (90) day pilot period.
- Standard Cooper Lighting Solutions warranty terms and conditions apply during the 90-day pilot program.
