Downlighting

LyteProfile LED

SL Shower Light Trim

Experience the change, see the difference... again, and again

Architectural non-conductive trim provides
the right illumination and added safety you need.

Benefits

UniFrame's non-conductive shower light trim is not just a modification to the downlight product, it was purposefully designed with wet locations in mind. The non-conductive flush mount lens with pre-installed gasket takes the worry out of wet location safety. It also reflects the lustrous architectural look and lighting performance that you've come to expect in all of Lightolier's newest LED downlights.

SL LyteProfile LED

Shower light trim downlighting

Features

Apertures: 3", 4", & 6" round

Finish: Matte white flange with diffuse lens

Lumens: 3" in 500-1500lm;
4" in 500-2500lm;
6" in 1000 to 3000lm

Construction: Flush mount Non-conductive lens with pre-installed gasket

Installation: One-piece reflector and lens allows for similar installation as standard trims*

Labels: cULus wet location

Warranty: 5 year

Frame (frame + engine/trim = complete product)

- Remodeler available only for 4-inch and 6-inch apertures
- Emergency (EM) frame includes emergency battery with ceiling and reflector mountable test switch (see spec sheets for details and limitations). Integral emergency battery not compatible with Power over Ethernet configurations.
- Interact Pro (RADIO & 3RADIO) requires above ceiling access.
- P3R 3-inch available up to 1500lm
- P4R 4-inch available up to 2500lm
- See spec sheets for 90CRI options.
- Consult factory for available Dali and 0-10V dimming to 0.1% availability. Refer to spec sheets for all dimming options.

Note: For reflector mounted test switch add "EM" to end of catalog code (example: P6RDL20835CDZ10UEM). Leave blank for ceiling mounted test switch. Reflector mounted test switch requires above ceiling access and 1.25" max ceiling thickness for downlight only. See LED-EM spec sheet for more details.

* Wet location rated shower light is applicable in any installation requiring dead front trims, interior or exterior non-corrosive applications, or where a diffused lens at the ceiling is required.
