# ABOLITE® LIGHTING SOLUTIONS

## *ELEGANT FIXTURES FOR OUTDOOR AND INDOOR ARCHITECTURAL APPLICATIONS*

Since the early 1920s, architects and specifiers have relied on LSI's Abolite products to create both classic, nostalgic environments, as well as high-tech, contemporary spaces. Manufactured in America and made from heavy gauge spun galvanized steel or aluminum, these decorative fixtures are ideal for restaurants, bars, retail establishments and malls. Our Abolite products are available in a wide variety of styles, shapes and finishes to compliment a myriad of architectural building designs - with each product featuring several options for brackets and accessories.

Today, LSI continues to build upon Abolite's long-standing reputation for quality, performance, durability and aesthetic appeal. Staying true to 90 years of RLM manufacturing heritage, our modern fixtures maintain the classic elegance of the original Abolite product line while adding the energy-saving benefits of modern LED technology. When architectural sophistication, performance and style are of high importance, trust LSI. Trust Abolite. Our fixtures are everywhere you look!

# 1 SELECT YOUR REFLECTOR

Create the statement you're looking for with the variety of available reflectors.

## PERFORMANCE

Our Abolite RLM luminaires feature light engines with outputs of 1,250, 1,500 and 1,700 lumens at color temperatures of 2700K, 3000K, 3500K and 4000K - producing the desired illumination for their intended applications. These high-performance fixtures showcase the classic elegance of the Abolite brand while adding the energy-saving benefits of modern LED technology. Importantly, our Abolite product line is compliant with the Buy American Act, and they can also comply with California's Title 24 energy conservation requirements.
