

LIGHTING SOLUTIONS

*For Parking Lots and
Parking Garage Applications*

HIGH-PERFORMANCE ILLUMINATION

FOR PARKING APPLICATIONS

From industrial parks and campuses to automotive dealerships and outdoor retail spaces, our area lights and parking garage luminaires are everywhere you look!

For more than 40 years, LSI's area lights and garage fixtures have been illuminating parking areas all across the United States. Made in America, our high-performance lighting solutions are valued by

facility owners, architects, engineers and contractors for their quality, reliability and innovation. Our energy-efficient, low maintenance LED products give you more options when considering your facilities unique illumination needs. With precision photometric distributions, multiple mounting options and accessories, as well as AirLink Blue wireless-controls compatibility, LSI luminaires are ideal for both new construction and retrofit projects.

PARKING GARAGE

LSI offers a wide selection of lighting solutions for parking garage applications. Suited for both new and retrofit construction projects, these products are designed to be surface and pendant mounted and feature attractive, modern appearances. Importantly, they also help reduce energy consumption and lower energy costs with high efficacy optical systems and easy to specify controls.

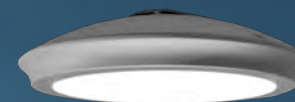

Of special note, our Opulence & Excursion luminaires feature technology that provides visual comfort with minimal glare. With sleek, low-profile housings, these products complement any architectural setting. Offering uniform downlight and optional uplight for

best in class parking garage illumination. Available with a wide variety of color temperatures and distributions, these products deliver ideal illumination that enhances visibility and safety throughout the garage, including in walkways. These products are also available with motion control sensors and our AirLink Blue wireless lighting control system.

In addition to Opulence & Excursion, we offer several commercial grade round, square and linear products to cover a myriad of parking garage applications. Visit the Garage Lighting section of our website at www.lsicorp.com for additional details about our complete family of parking garage luminaires.

PARKING LOT

LSI's Opulence, Mirada and Slice luminaires are game changers for outdoor parking lot applications. These product lines use high-performance LEDs and precise optics to produce superior levels of illumination and uniformity – enhancing safety, comfort and visibility. They are also among the most energy-efficient parking lot luminaires available on the market. Each of these luminaires meet DLC® and Buy American Act requirements, and can comply with California's Title 24 energy conservation requirements.

These attractive, low profile fixtures are available with motion sensors and LSI's AirLink Blue wireless outdoor lighting control system.

LSI also offers a wide selection of decorative and commercial grade luminaires for parking lot applications, as well as companion wall mount products and a complete line of poles and brackets. We apply the same high-quality standards to our poles and brackets as we do our parking lot luminaires.

Visit the Area Light section of our website at www.lsicorp.com for additional details about our outdoor family of parking lot fixtures.

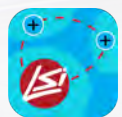

POLES & BRACKETS

LSI offers a full line of poles and mounting accessories to complete your lighting assembly in both square and round shafts. In addition, LSI offers round tapered, fluted and hinge based poles. Designed and engineered for durability and protected with our oven baked DuraGrip Protection System. Also available with our DuraGrip+ Protection system for unmatched corrosion resistance and an extended warranty. American made in our Ohio facility with industry leading lead times.

VISIT US ONLINE to learn more details about poles & brackets.

AIRLINK BLUE

This simple, highly-configurable product uses Bluetooth mesh technology to manage designated zones of illumination – helping parking garages enhance safety, reduce energy costs and comply with applicable regulations.
