

SDLRK & SRK Series

Retrofit Kit LED Striplights

LSI's SRK & SDLRK series of LED striplights are designed to retrofit traditional fluorescent fixtures. The fixture is designed to deliver unparalleled performance and efficiency versus LED tube replacement lamp alternatives meeting stringent energy requirements. A factory installed optional bracket can be field adjusted to fit existing housings saving time and money on installation. Designed for the renovation market and well suited for retail, warehouse, manufacturing and commercial/industrial applications.

- Available in 4ft & 8ft lengths
- Available in 3000K, 3500K, 4000K and 5000K color temperatures with minimum 80 CRI
- Standard 0-10V driver dimming down to 1%
- Expanded lumen packages range from 2000lm to 16000lm
- L70 Calculated life of over 60,000 hours
- Select from high transmission custom extruded frost acrylic lens (SDLRK) or no lens option (SRK) models
- LSI LED fixtures carry a 5 - year limited warranty
