

McGraw-Edison GAR/GAT/GLC Generation Series LED GAT Generation Series Avenue Features and Benefits

Performance and Aesthetic Value

From traditional to contemporary applications, the [Generation Series LED](#) and [Generation Series Avenue](#) post top luminaires provide the flexibility of form needed to complement a wide range of surroundings. A wide selection of base, cage, top, lens and finial styles allows for hundreds of design combinations.

LEDs open the door for meaningful reductions in energy consumption, improving the bottom line while providing real environmental benefits. The Generation Series LED and Generation Series Avenue luminaires provide warm, white light with dimming technology that allows for precise management of energy usage and illumination, while its long maintenance intervals deliver real operating cost savings and return on investment.

The Generation Series LED and Generations Series Avenue luminaires boast leading edge technology and world-class reliability along with user-friendly features like tool-less entry and quick electrical disconnects. Backed by rigorous engineering and manufacturing standards, the Generation Series LED and Generation Series Avenue luminaires integrate the latest technology in a familiar form with no compromises.

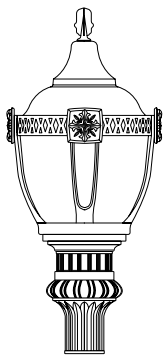

PRODUCT FEATURES

- Flexibility of form
- Superior photometrics
- Tool-less entry and quick electrical disconnects

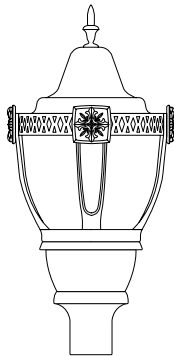

PRODUCT BENEFITS

- Complements a wide range of surroundings
- Excellent illumination and uniformity for many applications
- User-friendly features with world-class reliability
