

FPX

LED Flat Panel with Integrated Sensors and Control Options

Metalux

Ultra-thin profile

1' x 4'

2' x 2'

2' x 4'

FPX LED panel

The FPX LED panel series provides the high performance and aesthetic appeal of a flat panel while also being optimized for integrated sensors, emergency battery packs and multiple control options. The low-profile design is ideal for shallow plenum grid ceilings or surface mounting. The integrated grid clips enable installation speed and flexibility. FPX is an excellent lighting solution for commercial office spaces, schools, healthcare and retail merchandising areas.

- Variety of controls and emergency battery pack options in all sizes***
- Low profile perfect for renovation or new construction***
- Contractor friendly, quick and easy install***
- No maintenance required***
- Smooth, uniform, glare-free illumination***
- One install = code compliance and maximum energy savings***
- Perfect for low voltage applications using DLVP***

Durable construction

Integrated components are covered to meet code and ensure long term durability of the product

Impact and scratch-resistant lens with acrylic light guide

Rigid steel frame and extruded aluminum bezel

No maintenance - tight seams and no perimeter openings

Fast/simple install

Wire and wire nuts provided – easy to connect fixture to circuit and fixture to fixture

Multiple trade size KO and J-box rated for 12 AWG wire

Factory wired EM and sensors deliver code compliance with one simple installation

Architectural appeal

Seamless corners

Superior Optics with frosted lens provides smooth, even illumination

Integrated emergency battery pack and sensor are discretely positioned on the panel

Performance

High lumen options enable use in high ceilings, lower wattage options maximize energy savings
True replacement of two and three lamp troffers with T8, T5 or BX40 lamps
Long life LED system lasts over 20 years
Five-year warranty

Integrated Controls

0-10V dimming to 10% standard 1% 0-10V, DALI 2.0, Lutron, and step dimming available
WaveLinx sensor compatible for IoT capability
LumaWatt Pro sensor compatible for IoT capability
SVPD sensor compatible for out of the box functionality
DLVP sensor and driver compatible for low voltage applications

Integrated WaveLinx

Emergency Solutions

EL7W=7-watt, 120V-277V emergency battery pack installed
EL14W=14-watt 120V-277V emergency battery pack installed
ELV7W=7-watt, DLVP-compatible low voltage emergency battery pack installed
ELV14W=14-watt DLVP-compatible low voltage emergency battery pack installed
ETRD=Emergency Transfer Relay with dimming control

Integrated Emergency

Compliance and approvals

LM79 / LM80 Compliant

Lasts 20 Years

Accessories

Easy surface install

Simple two-point suspension

Code and spec compliance

Fully integrated emergency
