Product Features

Top Product Features

- 4ft and 8ft low profile, narrow 11" wide housing
- Available in surface, suspended and continuous row mount
- Multiple lumen packages available
- High-performance efficacy up to 160 lm/W
- Multiple Lumen Packages for Low Bay and High Bay Applications
- Options to meet Buy American and other domestic preference requirements

Notes (11) PI option does not include low voltage wiring for 0-10V dimming.		Notes (12) 8 ft. fixtures require two door frames per fixture. (13) Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.

PI Option Ordering Information

Catalog Number Suffix	Number of Circuits	Circuit Wired To Ballast	Catalog Numbering System
PI 1 BLK	1	Black	The PI System is available in sections up to 8' in length for continuous row wiring by simply plugging the sections together. Each PI section is factory wired to the ballast leads. Color coding of wires is as follows: PI-1 = One Circuit - 2 Wires: one black, one white PI-2 = Two Circuits - 3 Wires: one black, one blue, one white PI-3 = Three Circuits - 4 wires: one black, one blue, one red, one white When ordering the PI2/PI3 System it is necessary to specify the number of fixtures required for each circuit. Each circuit in fixture must be ordered as a separate line item, with a different hot wire color specified. All wiring to external feeds, using cord or cord & plug, are responsibility of installing licensed contractor. Cord and cord & plug sets must be ordered separately if PI option is chosen.
PI 2 BLU	2	Blue	
PI 2 BLK	2	Black	
PI 3 RED	3	Red	
PI 3 BLU	3	Blue	
PI 3 BLK	3	Black

BLK =Black Hot BLU =Blue Hot RED =Red Hot	
Leave Blank =Single Neutral /WHT =White Neutral /GRY =Gray Neutral	NG =No Ground (ground provided by fixture body) WG =With Ground (separate ground wire in harness)

Product Specifications

Construction

- Specification grade, full body housing
- End plates and socket tracks are die formed cold rolled steel
- Available in 4' and 8' lengths
- Integral driver channel for added strength
- Numerous KO's for easy installation

Electrical

- LED's available in 3500K, 4000K, and 5000K with a CRI > 80
- Available for 120-277V, 347V and 480V
- 0-10V dimming driver standard
- Optional modular power receptacle meets UL2459 and NEC 410.73
- UL/cUL rated for make and break under load from outside of the luminaire

Finish

- Electrostatically applied, baked white enamel finish
- Multistage cleaning cycle
- Iron phosphate coating with rust inhibitor

Optics

- Optical modules are enclosed inside housing to protect against damage
- Available in narrow or wide distribution
- Narrow beam optical module utilizes 95% specular aluminum finish
- Optional thin white baffle available for longitudinal shielding
- Clear or frosted acrylic lens available
- Heavy duty wireguard available
- Latched retention of shielding optics allows for easy access

Mounting

- Suitable for surface, suspension mounting with optional wire hook and chain set, stem or cable mounting
- Top connector box mounting available
- Narrow 11" housing allows mounting within 12" horizontally from the nearest edge of sprinkler deflector

Compliance

- cULus listed for damp locations -20 C – 45 C ambient environments
- RoHS compliant
- LED modules comply with IESNA LM-79/LM-80 testing standards
- DesignLights Consortium Qualified and classified for both DLC Standard and DLC Premium, refer to www.designlights.org for details

Integrated Controls

- MS integrated sensor provides 600 sqft of coverage at maximum height of 40'
- MSO integrated sensor provides 1250 sqft of coverage at maximum height of 40'

Warranty

- Five year warranty.

Dimensional and Mounting Details

Modular F-Bay Power Supply Option

Cooper Lighting's F-Bay Modular Power Supply option is available for use with all F-Bay products. The modular power supply allows external fixture access for safe and easy servicing. There is no need to remove lamps or reflectors to disconnect fixture power with F-Bay Modular Power Supply. Access to the individual fixture's power supply allows servicing without turning off all the fixtures, disrupting occupants. F-Bay Modular Power Supply is a time saver in installation – **simply plug & power.**

1. Modular Power Supply Receptacle supplied mounted into fixture Access Plate
2. Modular Power Cord & Plugs in 120, 277, 347, & 480V configurations for easy plug & power into existing supply

No internal fixture access required for installation or disconnecting power

Modular Motion Sensor Option supplied with Mounting Box and Modular Power Supply Receptacle

Code Compliance

- UL/cUL Certified for Make/Break under load (UL2549)
- Meets NEC requirements for ballast disconnect (NEC 410.73G)
- Allows for addition of Occupancy Sensor without hard connections
- Receptacles complete with insulating/dust cap
