

Metalux RBG

Narrow Lines of Light

Lengths

2'

4'

8'

Shallow plenum linear family with Lumen and CCT select

4" aperture, 6" grid width providing sleek lines of light

Simple switch to adjust color on site as desired

Simple switch to set lumens and watts as needed for the task

Switch tamper cover included

High performance efficacy up to 115 lm/W

Flexible – recessed, drywall, surface and suspension mount

Integrated sensors with IoT Connectivity

RBG Architectural | Shallow Plenum | Linear

The **RBG** is an elegant 4 inch aperture fixture family designed to please architects, engineers, contractors and designers. Available in three fixed lengths, RBG can be recessed, surface or suspension mounted and strategically placed throughout the space to create pleasing illumination and appealing topology in rows or individual placement. A selectable switch comes standard with three selectable lumen levels and three selectable color temperatures, providing RBG the flexibility to adapt to the changing needs of the space, setting, or environment. Customer applications include open and traditional offices, classrooms, coves, corridors, retail or anywhere stylish lines of light are desired.

Certifications

Features

CCT | Lumen Select

RBG is stocked with CCT and Lumen select providing designers, contractors, engineers and end users with the ultimate control of their space. RBG is capable of changing between multiple color temperatures and lumens with the simple slide of a switch. If desired, "locking" lumens/watts and CCT settings can occur via a tamper resistant cover (included).

Lumen and CCT switches

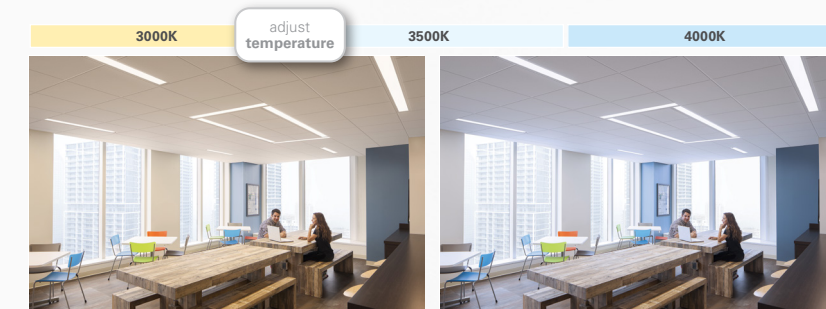

Understanding Lumens

Toggle between preset lumen outputs to choose the right light output creating your optimal lighting experience. Lumens per foot can be set to 500, 750 or 1000 for each length to match.

Understanding Color Temperature

SeleCCTable technology puts flexibility at your fingertips. By using switches located on the driver, users can choose from three color temperatures 3000K, 3500K and 4000K. Easily adapt to changes in paint, floor or furniture finish with a simple switch adjustment.

Product Features

Construction

Aperture/Grid: 4 inch nominal aperture w/ 6 inch grid spacing w/acrylic light guide, aluminum frame and matte white paint after fab finish

Surface/Suspension and drywall frame kits optimized for use in many spaces

Large external switches to adjust lumens and/or color before or after installation. Cover kit included for optional "lock out"

Flex with 90 degree connector enables shallow row mounting and labor savings with single feed per row

Optimized for shallow plenum spaces

Aluminum frame with matte white paint after fabrication standard

Built for speed, labor saving features such as quick disconnects and sized to fit common grid spacing with multiple KOs

IP40 rating - tightly sealed lens with no gaps to prevent bug or debris

Driver shown mounted on 2 ft.

Performance

IC rated with high performance efficacy up to 115 lumens per watt

Energy savings more than 50% compared to traditional sources

0-10V dimming to 10% standard

DLC listings at all three lumen/watt settings to enable maximum rebates based on watt reductions

TM21 life >L89@ 60,000 hours

80+ CRI

Options

Integrated Wavelinx, LumaWatt Pro, DLVP, and SVPD connected lighting options available

Emergency – EL7W and EL14W

Lutron and DALI 2.0 control options

Universal (120V – 277V) or 347V or Low Voltage with DLVP system

Ultra-thin profile
(shown at actual size)

Maximize valuable space - Configure 27 options with only 3 SKUs

Connected Lighting Systems

WaveLinx

Wireless Connected Lighting System

Adjustable occupancy sensing and daylight dimming control

Simple, secure wireless connectivity with out-of-the-box code compliance

Easy to use mobile application allows for fast set up and unlocks advanced control capabilities

Detection pattern covers standard ceiling applications up to 12 feet

Take compliance, network security, and energy savings into your own hands

Automatic code compliance. Seven tiers of information security features. Integrated wireless sensors to collect and transmit key building data. Control your system from a mobile app. It's simple: WaveLinx just works.

Connected Systems

Enlighted

Wireless Connected Lighting System

Configurable dimming, occupancy, light, temperature and power use sensing

Enterprise-class wireless networking with fully addressable settings

Powerful software for energy management and Internet of Things (IoT) data capture and analytics

Low bay detection pattern covers low- and high-ceiling applications up to 20 feet

A lighting system that transforms into an enterprise network

Enlighted is the connected lighting solution that combines a broad selection of energy-efficient LED luminaires with a powerful wireless sensor system. The sensor controls the lighting system in compliance with the latest energy codes and collects valuable data about building performance and use.
