

HORIZON RECESSED WALL WASH SERIES PERFORMANCE

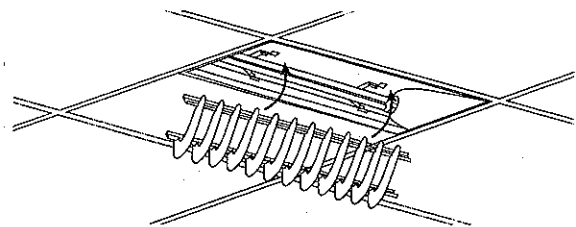

6

- The most uniform wall washer of its kind available!
- More efficient than the competition. The most efficient luminaire of its kind in the industry!
- Computer-designed optic eliminates direct and reflected lamp glare from all normal viewer positions.
- Available in Biax, T8 and cutting edge T5 and T5HO lamps.
- Suitable for stand-alone or row mounting in all models (including T8) without risk of row buildup.
- High reflectance painted-after-fabrication housing finish for optimum durability, whiteness and efficiency.
- Low iridescent, low grain specular (standard) and semi-specular (option) anodized aluminum reflectors.
- Precision lamp alignment and positioning for optimum wall wash uniformity
- Energy-efficient electronic ballasts.
- High precision, computer controlled component forming for outstanding optical control and craftsmanship.

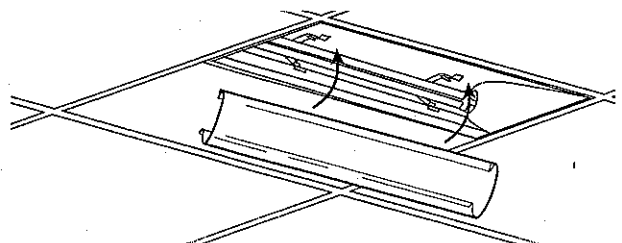

HORIZON RECESSED WALL WASH SERIES CONVENIENCE

7

- Easy, dependable installation.
- Easy ballast access from either below the ceiling or from above via ballast access/mounting plate.
- Easy lamp access for re-lamping and cleaning.
- Multiple wiring knockouts and large electrical access plate.
- Adjustable grid-lock brackets factory-installed. Easy adjustment with marked positions to accommodate various ceiling systems.
- Convenient, easy to install optional optical accessories.
 - All hardware included.
 - Easy, tool-less installation (safety screws provided for use by contractor's discretion).
 - Universal clip-on mounting system is compatible with all accessories and all standard housings.
 - Safety tethers provided.
- Wall wash luminaire orientation is not always intuitive to the contractor. Horizon has a convenient embossment arrow reading "To Wall" on the side of the housing to instruct the contractor to direct the RWW's wall wash optic
