Surface Mount

2-inch, 4-inch, 6-inch & 8-inch
Surface & Wall Mount Cylinders

COOPER
Lighting Solutions

Illuminate your creativity

Designed to complement any architectural space, the 2, 4, 6, and 8" LED round and square, standard or shallow height cylinders complement any space with wall, ceiling, pendant-mount, or aircraft cable options. A two-stage system produces smooth distribution with excellent light control and low aperture brightness. The cylinders are available in multiple lumen packages, color temperatures and a variety of finishes with custom options. Standard 0-10V driver dims to 1% and a multitude of optional drivers are available. Creating the perfect atmosphere is easy with these sleek cylinders that offer a variety of color control and connected options.

Connected solution

WaveLinx Sensor	Wireless Area Controller	Mobile Applications	Energy Savings

up to 70% SAVINGS on lighting energy costs

WaveLinx
Wireless Connected Lighting System

- Adjustable occupancy detection and daylight harvesting control
- Simple, secure wireless connectivity with out-of-the-box code compliance
- Easy to use mobile application allows for fast set up and unlocks advanced control capabilities

Take compliance, network security and energy savings into your own hands.

Automatic code compliance. 7-Tier network security features.
Integrated wireless sensors to collect and transmit key building data. And, the ability to control your system from a mobile app and the ability to exchange data with third party applications.

It's simple: WaveLinx just works.

Color control

VividTune
color tuning solutions

VividTune fine tuning of light

Whether you're looking to optimize productivity or simply add dramatic flair, VividTune's tunable white technology allows you to adjust the color temperature from warm white to cool white, creating an environment that fosters productivity and concentration.
