Product Features

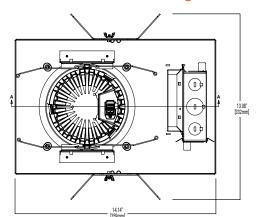

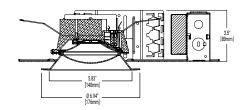

Top Product Features

- 250-4000 lumens; Offered in 90 and 97 CRI; ENERGY STAR® qualified
- · Easy disconnect for LED engine replacement and installation
- · Optional snap in driver for ease of replacement
- Standard 0-10V driver dims to 1%
- 2400K, 2700K, 3000K, 3500K, 4000K, 5000K; D2W[™] option from 3000K to 1850K
- Available W2N tunable white CCT range 2700K to 6500K or 2000K to 5000K
- · Options to meet Trade Agreements Act requirements

Dimensional and Mounting Details

Single Line Order Information

SAMPLE ORDER NUMBER: LDS6C109030D010TRM1HEM6

Invoice will indicate separate fixture components (housing, trim, module) which will ship complete from a single CLS facility in separate cartons. To receive separate components (housing, trim, module) shipment, click on the "Multi-Line Ordering Information Option" button to the right.

	HSA6 =Slope Adapter for 6" Aperture Housings, Specify Slope (18)		

Notes:1. Nominal Lumens will vary depending on selected color, CRI, driver and

reflector finish. Reference Multiplier tables.
2. Order trim with polymer trim ring.
3. Not available with Chicago Plenum.
4. ULus listed only

4. ULUs listed only
5. Order die cast trim with flange type 4
6. Requires knife edge accessory ring.
8. Available only on CS distributions.
9. Not available on PS or CS distributions.
11. PS available in self-flanged MW finish only.
12. Offered up to 2000 lumens

13. Flange is the same finish as the reflector
 14. DMX fixtures default to full on upon loss of DMX signal.
 15. Refer to system specifications for additional information, features, and

benefits. Use with 0-10V driver.

16. Non-IC

17. WPN = WaveLinx PRO wireless node provides luminaire-level control with scene and zone configuration without an integrated sensor, Connects wirelessly with daylight dimming sensor and PIR motion sensor if desired. Use with 0-10V driver only.

18. Not recommended for use with Wall Wash

19. Only product configurations with these designated prefixes are built to be compliant with the Buy American Act of 1933 (BAA) or Trade Agreements Act of 1979 (TAA), respectively. Please refer to DOMESTIC PREFERENCES website for more information. Components shipped separately may be separately analysed under domestic preference requirements. Offered with shallow (S) spun trim.

20. Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.

22. Not available with DLVP

23. 120V-277V

Product Specifications

Lower Shielding Reflector

- · Painted die cast aluminum, spun aluminum or nonconductive injection molded lower reflector with a lensed upper optical chamber providing superior lumen output with minimal source brightness
- · Spun reflectors are offered in all Portfolio anodized finishes
- Reflector is retained with two torsion springs holding the flange tight to the finished ceiling surface
- · Plaster lathing ring accessory offered for flush reflector transition

Plaster Frame

Galvanized steel plaster frame designed for ceiling thickness from ½ to 1-1/4-inch

Universal Mounting Bracket

- Accepts 1/2" Electric Metallic Tube (EMT), C-channel and bar hangers
- Adjusts 5" vertically from above and below the ceiling

Junction box

- Four 1/2" and two 3/4" trade size pry outs positioned to allow straight conduit runs
- · Lever connectors for simple push in wiring
- · Listed for (4) #12 AWG (two in, two out) 90°C conductors and feed thru branch wiring for type IC and Plug in drivers for 120/277V only. For all other cases (8) #12 AWG (four in, four out) 90°C conductors and feed thru branch wiring for 120/277V only

Thermal

Aluminum heat sink conducts heat away from the LED module for improved performance and longer

LED System

- · Contains a plurality of high brightness white LED's combined with a high reflectance upper reflector and convex transitional lens producing even distribution without pixilation
- Auto resetting, thermally protected, LED's are turned off when safe operating temperatures are exceeded
- Quick disconnect allows for tool-less replacement of LED engine from below ceiling
- 90 and 97 CRI
- · 90 & 97CRI: L78 55,000 hours for 1000-2000 lumens, L90 55,000 for all other lumen output
- Color variation within 2-step MacAdam ellipses
- Available in 2400K, 2700K, 3000K, 3500K, 4000K and 5000K correlated color temperature (CCT)

Vividtune and High CRI

- · 98 CRI and W2N: L70 55,000 hours
- D2W™ dim-to-warm shifts CCT from 3000K to 1850K as fixture dims mimicking halogen sources.
- · W2N Tunable white CCT range 2700K to 6500K or 2000K to 5000K, 90 CRI. Standard
- 98 CRI With a full-spectrum approach using broadblue chip technology and special phosphor blends, Thrive is able to closely match the spectrum of the sun across all color temperatures. Benefits of the natural spectrum of the sun using Thrive include superior accurate color rendering, reduced eye strain, and a higher sense of emotional well-being.
- See dedicated specification sheet for more details.

- Standard 120-277V 0-10V dimming driver provides flicker free dimming from 100% to 1%
- Optional 120V leading edge/0-10V, <1% 0-10V, Fifth Light, DMX or Lutron® Ecosystem
- Distributed low voltage power system combines power, lighting, and controls with ease of installation.
- Optional magnetically guided snap in driver for ease of maintenance.

Emergency Option

- 6W battery provides 90 minutes of standby lighting, meeting most life safety codes for egress lighting
- UL 924 listed

Connected Lighting System

Two WaveLinx connected solutions to choose from. Refer to WaveLinx system specifications and application guides for details.

WaveLinx PRO Tilemount Sensor Kit

WaveLinx WPST tilemount sensor kit offers daylight dimming, PIR motion sensing, scene and zone configuration, automatic commissioning; and optional RLTS - Real Time Location Services available.

WaveLinx PRO Wireless Node

WaveLinx PRO wireless node provides luminairelevel control with scene and zone configuration without an integrated sensor; Connects wirelessly with daylight dimming sensor and PIR motion sensor if desired. Use with 0-10V driver only.

WaveLinx LITE Tilemount Sensor Kit

WaveLinx LITE WLST tilemount sensor kit offers daylight dimming and PIR motion sensing, scene and grouping configuration.

WaveLinx Tilemount Kits Application

- The WPST and WLST tilemount kits include a control module mounted on the luminaire junction box via 1/2" knock-out, and a tilemount sensor on 54-inch whip; for ceiling installation by direct-mount spring clips or via mounting bracket in octagon ceiling boxes
- The WPST and WLST tilemount kits may be ordered as factory installed on the luminaire, or ordered separately as a field installed accessory kit.

Code Compliance

- · Thermally protected
- cULus Certified to UL 1598 / C22.2 No. 250.0 suitable for wet locations with downlight; damp location with wall wash and hyperbolic with covered ceiling
- IP66 rated when used with IP66 gasket
- Optional City of Chicago environmental air (CCEA) marking for plenum applications
- FCC CFR Title 47 Part 15 Class B at 120VAC and Class A at 277VAC
- Insulated ceiling (IC) rated up to 1,500 lumens (90 and 97CRI). All others are non-IC rated (insulation must be kept 3" from top and sides
- Can be used for State of California Title 24 high efficacy LED compliance under JA8, reference Modernized Appliance Efficiency Database System (MAEDBS) for 2016 JA8 High Efficacy Lighting
- RoHS compliant
- Photometric testing completed in accordance with IES LM-79
- LED life testing completed in accordance with IES LM-80-08 and TM-21-11 standards

Warranty

· Five year warranty www.cooperlighting.com/legal

Connected Lighting Systems (6) (11)

WPST = Field installed WaveLinx sensor Kit (13) WLST = Field installed WaveLinx LITE Sensor Kit (12)

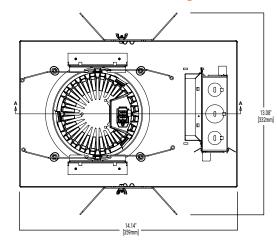

1. Only product configurations with these designated prefixes are built to be compliant with the Buy American Act of 1933 (BAA) or Trade Agreements Act of 1979 (TAA), respectively. Please refer to DOMESTIC PREFERENCES website for more information. Components shipped separately may be separately analysed under domestic preference requirements. Offered with shallow (S)

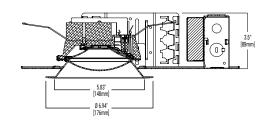

- 2. Nominal Lumens will vary depending on selected color, CRI, driver and flector finish. Reference Multiplier table
- 5. DMX fixtures default to full on upon loss of DMX signal.
- 6. Not available with Chicago Plenum.
- 7. ULus listed only
- Not available with DLVP
 Refer to system specifications for additional information, features, and benefits. Order either factory installed option or accessory. Use with 0-10V
- 12. WLST = WaveLinx LITE tilemount sensor kit for daylight dimming, PIR motion sensing, use with D010 only (Refer to WaveLinx LITE system specifications)
- 13. WPST = WaveLinx wireless sensor kit for daylight dimming, PIR motion sensing, and optional RLTS - Real Time Location Services, use with 0-10V only.
- 14. IC rated up to 3000 lumens for 90 & 97 CRI
- 15. WPN = WaveLinx PRO wireless node provides luminaire-level control with scene and zone configuration without an integrated sensor, Connects wirelessly with daylight dimming sensor and PIR motion sensor if desired. Use with 0-10V driver only.
- 16. PS available in self-flanged MW finish only
- 17. Offered up to 2000 lumens
- 18. Flange is the same finish as the reflector
- 19. Requires knife edge ring
- 20. Anodized or spun reflectors

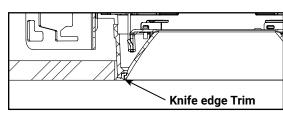

- 21. Die cast only
- 22. Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.
- 23. Order trim with polymer trim ring.
- 24. Order die cast trim with flange type 4
- 25. For remote driver order emergency module with the remote driver
- 26. If using remote driver order battery and controls with the remote driver
- 27. 120V-277V
- 28. Used to bypass local control during outage. Must be used in conjunction with
- UL 1008 device (provided by others).

 29. Not recommended for use with Wall Wash

Dimensional and Mounting Details

Connected Solutions

WaveLinx LITE - WLST Tilemount Sensor

- Intuitive Android™ or Apple® iOS® app for basic system code compliant set up and configuration via Bluetooth
- Up to 28 unique areas per project site (WaveLinx LITE Bluetooth network)
- Up to 50 devices for an area, any one of 16 control zones, up to 6 occupancy sets, and custom lighting scenes
- Automatic occupancy or vacancy, sensor sensitivity, daylight dimming, etc. configurable through the app
- Refer to the WaveLinx system specifications for details

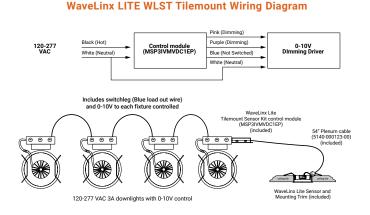

WaveLinx PRO Wireless - WPST Tilemount Sensor

- WaveLinx PRO Wireless functionality configures zones and customizes settings from one secure mobile app
- Automatic code commissioning that meets the strictest codes
- Fixtures and sensors integrate with Wireless Area Controller, Wall Stations, and Control Devices
- Stand-Alone Offices or Entire Building Network Installations

WaveLinx mobile app settings
