VERD-S Verdeon Small

Features and Benefits

ENGINEERED FOR PERFORMANCE AND RELIABILITY.

The Verdeon Small LED roadway luminaire gets the job done. Combining low initial cost with superior energy savings, the Verdeon Small luminaire provides warm, white light up to 11,500 lumens and 161 LPW with superior color rendering and uniform illumination of the roadway surface.

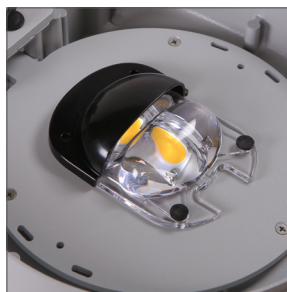

PRODUCT FEATURES

- Up to 161 lumens per watt
- Five optical distributions (Type I, II, III, IV and V), that are precisely designed to shape the distribution, maximizing efficiency and fixture spacing
- Multiple lumen packages ranging from 2,500 – 11,500 delivered lumens
- 2200K, 2700K, 3000K, 4000K, and 5000K CCTs available with 70 CRI
- Optional 3 or 7-PIN NEMA twistlock photocontrol receptacle
- Tool-less access for ease of installation and maintenance
- Standard with three-position tunnel compression type terminal block

DESIGN FEATURES

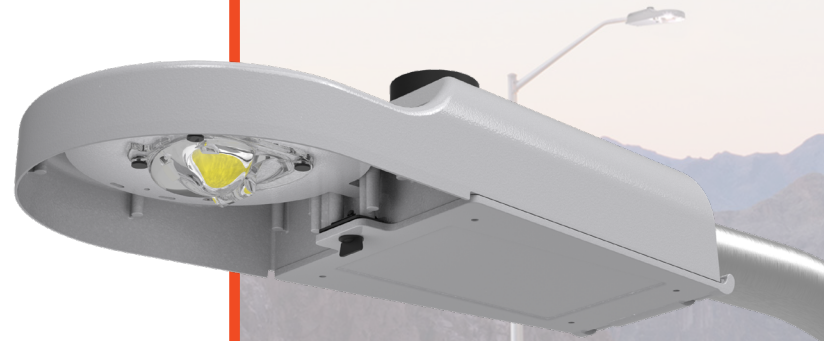

7-PIN NEMA Twistlock Photocontrol Receptacle

House Side Shield

Tool-less Access
