PRODUCT FEATURES

LAMPING

This remote electronic transformer can be used to power lamps totaling up to 150 watts. This transformer is equipped with fast-acting short circuit and overload protection that will safely turn off the system should a short occur. Once the short is removed, the unit can be reset by simply flipping the wall switch off and back on.

Remote Transformer-150W EI 12v LED

Remote Transformer-150W El 12v LED

ORDERING INFORMATION

700AT152EL FINISH

BLACK

As a general rule when using LED fixtures we do not recommend using greater than 70% of specified maximum wattage on the transformer due to inrush current. for assistance, please contact our technical support department.
