# FEATURES & SPECIFICATIONS

CONSTRUCTION - Made with a spun copper housing with stainless steel fasteners. Designed to efficiently operate R40 and PAR38 shaped lamps. A high temperature drain plug is provided for uplight applications. ETL listed for wet locations.

FINISH - A Patina Finish or Super Durable Polyester Powder Coat finish are both available. Standard colors available: Natural Copper, Brown Patina, Flemish Patina, Gray Patina, Black, Bronze, White, OD Green, US Green. Custom colors available upon request.

OPTICAL SYSTEM - Beam spreads vary based on the light source and lamp shape chosen. Standard shields include an up shield with a convex clear tempered glass lens and an open down shield. Various additional shield and lens assemblies are available for custom applications.

ELECTRICAL SYSTEM - HID models can be ordered with multi-tap (120V, 208V, 240V, 277V) high power factor or 120V normal power factor ballast enclosures. Incandescent models available for line voltage operation. Each fixture comes with a medium base porcelain 4KV rated socket.

MOUNTING - Comes standard with a 1/2" threaded knuckle mount, fully adjustable swivel arm, and locking teeth. The fixture can be mounted directly to the ballast enclosure, or it can be remote mounted using a Techlight mounting accessory.

# **ORDERING INFORMATION**

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.

NOTES

EXAMPLE:

- 1 = Premium shields are designed to allow debris to wash free in an up light position.
- 2 = Fixture must be mounted within 10' of ballast enclosure.

R4LWC-S26

3 = Custom RAL color matching is available. Contact your sales representative for additional info.
