

LOCATING YOUR ENGINE ID NUMBERS

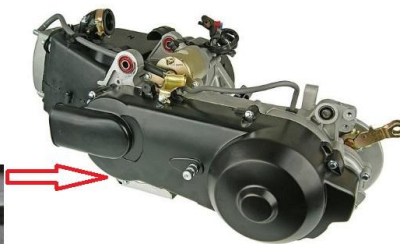

HORIZONTAL ENGINES 50-150cc

- Engine ID located just below the drive sprocket. Note your engine may have another cover over the drive sprocket making this harder to view. To make viewing easier you can remove your cover plate.

GY6 ENGINES 50-250cc

- Engine ID located just below the CVT belt cover toward the front of the engine.

VERTICAL ENGINES 125-300cc

- Engine ID located just below the sprocket cover toward the front of the engine.
